

**PIN 8      Base Module**

- 1 No fault
- 5 Maximum allowable temperature in module box exceeded
- 6 A/C electromagnetic clutch jammed or poly-V-belt broken
- 7 Poly-V-belt slips
- 8 m120: Left LH-SFI control module voltage supply, open circuit
- 9 m104, 119: LH-SFI control module voltage supply, open circuit  
m120: Right LH-SFI control module voltage supply, open circuit
- 10 Base module voltage supply output fuse F2, open circuit
- 11 Base module voltage supply output fuse F3, open circuit
- 12 Base module voltage supply output fuse F1, open circuit
- 13 Base module voltage supply output fuse F4, open circuit
- 15 Kickdown switch, short circuit
- 16 A/C electromagnetic clutch, short circuit
- 17 Module box blower motor, short circuit
