Mercedes-Benz

Live life large

We all remember the trips... the entire family in the back of the station wagon singing songs and playing games to pass the time along the way. It's part of growing up in America.

But looking back through the prism of time may have colored that great memory a bit. In reality, space was tight, for both passengers and gear. And perhaps there was more quarreling than music and merriment.

The Mercedes-Benz GL-Class gives you the opportunity to give your family the experiences you cherish from your childhood... but with certain modern advantages to turn "Are we there yet?" into "Are we there already?" It offers power, luxury, and comfort that have their roots in the long history of Mercedes-Benz excellence and on a scale that your modern life demands.

The full line of Genuine Mercedes-Benz Accessories embody that excellence in their design, their engineering, and how they help you live your life... in the biggest of ways.

Mercedes-Benz Navigation System³

The world is changing every day.

► Available as a factory or dealer-installed option, the Mercedes-Benz Navigation System is an in-dash console that combines Global Positioning System (GPS) technology with detailed electronic maps to allow you to plan trips, navigate detours and help prevent you from getting lost. (Vehicle location is determined by the GPS system.)

The system covers more than 4.6 million miles of navigable roads in the 48 contiguous United States, plus Hawaii and Canada.

The Navigation System also offers 1.6 million Points Of Interest in 40 categories including ATMs, hospitals, hotels, airports, museums and more.

NavUpdate Data

Your Mercedes-Benz Navigation System relies upon a detailed electronic map to guide you to your destinations and help you find the services and attractions that you need and want in your daily life.

But things are constantly changing out there. Roads are added or diverted, restaurants open and close, hotels and hospitals are built, ATMs move. In fact, as much as 20 percent of the navigation data available for this system is updated every year.

That is why Mercedes-Benz offers updated navigation data available for purchase from your authorized Mercedes-Benz dealer to help ensure that you always have current navigation information.

³ Navigation system data represents the 48 contiguous United States, plus Hawaii and Canada. Directional assistance provided only when GPS coverage is available. Maps do not cover all areas nor all routes within an area. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place.

Who's riding in your back seat? Your kids' favorite superhero, a dashing leading man, or maybe it's your favorite comedienne? With the Mercedes-Benz Rear-Seat Entertainment System, you can bring along your favorite DVDs and your back seat becomes your own personal movie theater.

Your passengers are entertained and because DVD audio plays over wireless headsets, the driver can concentrate on driving with fewer distractions.

The Mercedes-Benz Entertainment System includes:

- ▶ A state-of-the-art DVD player mounted under the second seat row to protect it from everyday wear and tear
- ▶ A high-resolution 7" LCD color display that conveniently folds away when not in use for additional security
- ▶ A specially designed, child-friendly remote control featuring a sliding cover that exposes key buttons such as Play, Pause, Rewind and Fast Forward. Picture quality controls and other advanced user options remain covered
- ▶ Two high-quality wireless headsets for tangle-free operation and easy storage
- ▶ Auxiliary jack enables the use of gaming devices (gaming hardware not included)

The Entertainment System supports movies in DVD format and music in CD, DVD and MP3 formats.
