

CLK

2008 CLK-CLASS

Mercedes-Benz

Expressly made for those who have made it.

Now that you've arrived, your departure should be every bit as exhilarating. It's what the newly refined CLK-Class lives for. Our CLK-Class Coupes and Cabriolets are a remarkable blend of serene composure and controlled aggression. You'll witness it in the new, lean AMG body styling. And you'll feel it in the 6 and 8-cylinder engines as they effortlessly deliver dynamic power.

The 2008 CLK-Class has arrived.
And so have you.

Styled to be objects of desire.

Off the top, let us discuss what makes our topless Cabriolets and elegant Coupes truly memorable. The B-pillar, or rather, lack of it. The B-pillar usually separates the front and rear side windows. But what do you get if you leave it out? You get a view that is unobstructed, unfettered, and frankly, unbelievable. So you can see the world in its entire pillar-less beauty.

Now feast your eyes on our CLK-Class' rather spectacular good looks. Yes, the AMG Styling Package is now standard on the CLK350 models. We think you'll appreciate the aggressive front apron and air dam, flared side skirts and rear apron, as well as the AMG trunk lid spoiler. To top it all off, there are AMG 17" 5-spoke wheels with cross-drilled brake rotors and calipers with "Mercedes-Benz" lettering. And we added a lowered sport suspension to compliment the powerful 268 hp beneath the hood.

The same AMG body styling is evident on the CLK550 models, but they sport new AMG 18" 5-twin spoke wheels. Naturally, covetous stares come standard on our entire automotive offering.

The difference between +20 and -16° C: 25 millimeters.

Not only is the CLK-Cabriolet's soft-top a wonderful extension of the CLK-Class' appealing design, it also possesses outstanding soundproofing and heat insulating properties. The fabric roof is only 2.5 cm thick, but its three-layer construction ensures an enjoyable ride even when the weather chooses not to co-operate. Our soft-top fabric comes standard in Black, or choose the available Blue¹ or Grey¹. The fully electric soft-top closes quickly and easily, in around 20 seconds. The spacious trunk of the CLK is large enough for your luggage whether the soft-top is open or closed.

Too warm? Too cool? We've thought of that as well. Our dual-zone THERMATIC automatic climate control system adjusts the heating and cooling systems as needed. The CLK550 and CLK63 AMG are equipped with the upgraded THERMOTRONIC automatic climate control system to monitor sunlight intensity and moisture, while a sophisticated air filter removes dust and pollen. So you can breathe easy.

¹Not available with all paint/leather combinations. See Combination Chart on page 28 for details.

Comfort that appeals to all the senses.

Here's the inside story on the CLK-Class. Clear lines and exquisite design dominate. Whether you're the driver or passenger, you're surrounded by splendid style and modern luxury.

Functionality is an equally high priority, as your first glance of the instrument panel will immediately confirm. All the key information is intuitively laid out directly in the driver's field of vision, surrounded by high-gloss Burl Walnut wood trim¹ or Dark Ash wood trim². Fine leather upholstery comes standard, and is breathable, durable and meticulously hand-fitted to seats and interior accents. The CLK63 AMG receives special treatment with ultra-soft AMG Nappa Leather and top-grain Nubuck inserts for an exclusive and comfortable feel. AMG aluminium trim tops off this model's superbly finished interior.

10-way power-adjustable heated front seats raise the comfort level up another notch, while the memory function brings them automatically to one of three possible pre-set positions. For the CLK550 models and CLK63 AMG, the multicontour driver's seat allows even more ways to adjust the back rest, lumbar support, side bolsters and seat length, so the longest commutes are not as long as they seem.

Travel to any extreme in luxurious comfort with the Climate Comfort front seats³, where multi-stage air-conditioning and heat is directed through the perforated seat leather.

¹Standard on the CLK350 models. Standard in conjunction with Leather upholstery on the CLK550 models. ²Standard in conjunction with Leather Sport upholstery on the CLK550 models. ³Optional on the CLK350 and CLK550 models. Standard on the CLK63 AMG.

The song of the open road played in surround sound.

The cabin of the CLK-Class is one very entertaining place to be. There's a single CD player and AM/FM/weatherband radio that can be controlled with steering wheel buttons, allowing you to enjoy your music while staying focused on the road. Or bring your carefully crafted play lists with you – the new auxiliary input in the glove compartment means you can connect your MP3 player to the sound system without skipping a beat.

Also new is the optional Premium Package for the CLK350 and CLK550 models, featuring the harman/kardon® LOGIC7® surround sound system and MP3-compatible 6-disc CD changer. This sound system brings concerts, symphonies and 110 premium channels of SIRIUS Satellite Radio¹ to life through the multi-channel Digital Sound Processing (DSP) amplifier. And there's pre-wiring for your cell phone to charge the battery or use safely while driving. The CLK63 AMG comes fully orchestrated with all of these features.

To get you where you're going, there's the COMAND APS control and display system with a 6.5" full colour screen and GPS-based navigation² putting any and all routes at your fingertips.

DVD-based navigation gets you there without hassle, with dynamic route guidance via Global Positioning Satellite information and the incorporation of real-time local traffic bulletins (TMC).

¹Monthly subscription required for service. ²Optional on the CLK350 and CLK550 models. Standard on the CLK63 AMG.

An indescribable feeling comes from undeniable power.

The CLK-Class triggers emotions that are hard to ignore. Their pulling power is impressive to say the least and their exemplary smoothness is matched by impressive fuel economy and low pollutant emissions. Hold tight as you experience the 268 hp the CLK350 is capable of delivering. And only when maximum torque is available over a wide engine speed range can sufficient power be available at both low and high speeds. CLK350 models put 258 lb-ft of torque at the driver's disposal from 2,400-5,000 rpm.

Topping the CLK-Class line are the 8-cylinder high-performance power plants. The CLK550's 382 hp engine has potential that is just begging to be tapped into, with 391 lb-ft of torque available between 2,800 and 4,800 rpm. The CLK350 Coupe achieves 0 to 100 in a mere 6.4 seconds, while the CLK550 Cabriolet can do it in 5.3 seconds.

Wondering about the CLK63 AMG? Let's just say it blisters the pavement – but more about that later.

Silk is raw by comparison to our transmission.

The CLK-Class is fitted with the 7G-TRONIC 7-speed automatic transmission. The shorter and quicker gear changes with the 7G-TRONIC means you're always in the best gear for the situation at hand. This cuts fuel consumption, optimizes acceleration, and ensures smooth gear changes. Add to that the ability to skip multiple gears when downshifting, which significantly improves performance. For an even more sporty experience, you can operate the 7G-TRONIC using steering-wheel shift paddles. The two shift paddles are positioned on either side behind the steering wheel, allowing for fast upshifts and downshifts. Such placement and operation opens the door to a new level of driving pleasure. Plus, if you keep the downshift paddle pressed, the transmission will switch automatically to the gear that offers the best acceleration.

The CLK550 and CLK63 AMG models offer sporty aluminium shift paddles on the steering wheel. Remember: left paddle shifts down, right paddle shifts up. Either direction leads to absolute excitement.

Ferocious grace.

When everything dedicated to handling works in seamless harmony the driver has flawless control. That is the idea behind the Mercedes-Benz DIRECT CONTROL technology package that encompasses the suspension, transmission and steering functions of the CLK-Class.

The new standard sport suspension provides firmer damping than a conventional suspension. Combine this with staggered performance tires, modified springs, shock absorbers and torsion bar to allow for sportier driving styles without sacrificing comfort for you and your passengers. You'll also note that DIRECT CONTROL works with the sport suspension to offer a more precise steering response; in fact, it even has sensors that monitor your individual driving style and then relays minute adjustments to the shocks, suspension and transmission controls. Now you can control the road magnificently.

Leaving just one question – can you control your emotions?

Make your own ideal driving conditions.

Because road conditions are sometimes less than perfect, we perfected engineering that compensates brilliantly. Our safety features include the Electronic Stability Program (ESP[®]), which actively and automatically sends braking pulses to the wheels to help stabilize the vehicle in the event of understeer or oversteer, thus making it easier for the driver to cope safely and confidently in critical situations¹. ESP[®] is primed for action at all times: when braking, accelerating or cruising along. Brake Assist (BAS) is integrated into the ESP[®] and controls maximum braking pressure. BAS detects emergency braking situations based on the speed with which the brake pedal is pressed and assists the driver by increasing the brake pressure.

Of course, Mercedes-Benz would never leave you in the dark when nighttime driving situations are concerned. For enhanced safety when cornering in the dark, your CLK-Class is equipped with Active Bi-Xenon headlamps² with the integral active light function. When set to low beam, the headlamps follow the driver's steering movements and can enhance illumination of the road on bends by up to 90%. The active light function also incorporates the cornering light function, which automatically activates the fog lamp on the inside of a sharp bend at speeds of up to 30 km/h.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. ²Only available as part of the optional Premium Package on the CLK350 models. Standard on the CLK550 and CLK63 AMG models.

Side window air bags form a large protective cushion and barrier in case of a side collision, reducing the chance of head and neck injury.

Unrivalled protection for unforeseen situations.

At Mercedes-Benz, we're particularly proud that our CLK-Class incorporates class-leading safety innovations. For example, our NECK-PRO crash-responsive front head restraints move forward and upward in the event of a rear collision to prevent whiplash. And the CLK-Class comes with head/thorax air bags¹ to dramatically improve safety in the case of a side collision. These air bags are fitted in the outer edges of the front seat backrests and inflate to cover part of the door paneling and closed side window. Three-point seat belts with highly responsive belt tensioners and belt force limiters act to reduce the risk of chest injuries.

A high-strength, reinforced steel passenger cell provides increased torsional resistance and rigidity. And despite the absence of the B-pillar, this passenger cell provides 40% increased crumple zone strength over conventional designs. As well, the automatic rollover bars are another reassuring safety feature built into the CLK-Cabriolets. If the car is in danger of turning over, the rollover bars integrated into the rear head restraints can be deployed in a split-second.

¹WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats.

AMG

Notice the incredibly athletic build?

Meet the decathlete of the CLK-Class family. Our AMG is one superbly-rounded performer; this world-class sprinter accelerates from a stand still to 100 km/h in just 4.7 seconds. This awe-inspiring power flows effortlessly from a hand built 6.3 litre V-8 engine that produces 475 hp and 465 lb-ft of torque. The power plant is paired with the 7G-TRONIC 7-speed automatic transmission and AMG SPEEDSHIFT programming that lets you change gears 35% faster via aluminium gearshift paddles mounted to the steering wheel. There's a high-performance composite braking system to go along with a performance-tuned suspension.

And the athletic build? It comes courtesy of the dynamic AMG Styling Package, including a sport exhaust with dual chrome tailpipes and AMG 18" 5-spoke wheels on staggered performance tires¹. It's definitely on for the record books.

¹Not recommended for winter use.

AMG delivers power and sophistication in every detail, such as distinctive brushed stainless steel sills complete with engraved AMG lettering.

Even the details will set your heart racing.

Pure power is nothing without refinement. And the control centre – the driver's seat – is the most serene expression of it. Caress the ultra-luxurious AMG Nappa leather upholstery with soft Nubuck inserts, in your choice of rich Black or refined Basalt Grey. Then notice how the AMG sport seats for you and your front passenger cradle you with additional side bolsters in tight corners.

There's an ergonomically designed sport steering wheel with shift paddles to put the reins of the engine in your hands. The specially crafted AMG instrument cluster with its AMG-exclusive menu includes a lap-bettering RACETIMER function – so set your own personal best.

As for fine finishing touches, we've topped the AMG interior off with brushed stainless steel door sills, and gas and brake pedals. So even when you put your foot down, the exhilaration is beautifully designed.

Make your driving experience as individual as your signature.

When it comes to creating very special interior and exterior features, the *designo* team is unbeatable. Whether you're looking to turn your CLK-Class into an exquisite overall work of art, or you'd simply like to add the odd highlight, your wish is our command.

Our *designo* team can offer a wide variety of exclusive paint finishes and fine leather for your CLK-Class. Exquisite trim elements like *designo* Black Piano lacquer or *designo* Natural Oak grain with a silky matte finish will also make your CLK-Class truly stand out. One particularly alluring example of the options on offer is the gearshift in leather/*designo* wood. In the Coupe, the optional *designo* Alcantara roof liner is available in Anthracite, Pebble Beige or Alpaca Grey, which gives the CLK-Class a very special finishing touch.

Please see your dealer for details.

Personal expression is everything.

The ultimate finishing touch is how you combine beautiful paint finishes with luxurious leather interiors. So carefully consider the perfect combination for your dream vehicle. Choose from a sophisticated palette of solid and metallic paint colours. All of which benefit from a scratch-resistant clear coat that guards them against the weather and driving conditions. So your perfectly coordinated CLK-Class will stay as sensationally head-turning as the day you brought it home.

Refine and elevate.

Customize every angle of your CLK-Class with genuine Mercedes-Benz accessories, and drive away in an automobile that's as unique as you are. All genuine Mercedes-Benz accessories are manufactured to meet the highest expectations for beautiful and practical design, quality materials and ingenious engineering. Now is your chance to refine and elevate an automobile that's already one of a kind.

Roof box

Make your way to the slopes in perfect comfort while keeping your equipment safely stowed above you. Strap on your skis and let the attractively designed roof box for your coupe speak for itself.

17" "Sadachiba" 5-spoke multi-piece alloy wheels

Enjoy added design and extra shine from the high-shine surface of these attractive alloy wheels.

Roll along on four wheels of pure strength and style.

Chrome plate mirror housing

Turn even more heads with the unique radiance and lustre that comes with the addition of chrome plated mirror housing.

iPod® Integration Kit

You've spent time carefully filling your iPod® with the great music you love. Now you can enjoy every minute of every song as you cruise in your CLK-Class, courtesy of the iPod® Integration Kit.

The actual fuel consumption of this vehicle may vary. Refer to the *Fuel Consumption Guide*. ⁴Dimensions shown are for models with standard equipment.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz. And to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear", such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternate travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.
