12

Seduction only takes a moment.

Lay your eyes on the CLS-Class for the first time and you will be captivated. The curved L-shaped headlamps of the Mercedes-Benz face sparkle. The seductively arched roof, broad shoulders, frameless door glass and concealed B-pillars offer the stylish and intimate experience you expect of a coupe – only with the accessibility of four doors. The aggressive stance of 18" 5-spoke alloy wheels hint at the physical prowess that lies within. It all comes together in a definitive statement – a unique blend of seduction and sensibility that is distinctly Mercedes-Benz.

Peace comes from within.

You feel a sense of overwhelming well-being as you settle into the driver's seat of the CLS-Class. It's only natural. Ergonomically formed for optimum comfort and support, the seats in the CLS-Class help you make the most of its sporty credentials. We know that no two people have exactly the same build. That's why the front seats are equipped with a 10-way power adjustment system which allows them to be configured to provide the ideal position, cushion height, inclination and longitudinal setting for each front occupant.

The Climate Comfort front seats¹ feature fans arranged in the seat and backrest padding to evenly distribute warm or cool air under the leather upholstery. Since each seat is controlled separately, every journey is experienced in perfect comfort.

In truth, the back seat is as comfortable as the front. Stylish and roomy, the two individual rear bucket seats are extremely accommodating and relaxing. Premium leather upholstery begs you to linger, and a generous amount of legroom only adds to the experience. In short, the CLS takes a back seat to no other car.

¹Optional on the CLS550. Optional on the CLS63 AMG as part of the Premium Package.

Our features are more refined.

Relax, we've thought of everything. The steering wheel and selector lever in the CLS550 are finished in exquisite leather with a heated rim as standard¹. The dashboard is embellished with high gloss Laurel wood trim – the largest single piece in any Mercedes-Benz vehicle. The centre console features the COMAND APS with navigation that uses the Global Positioning System (GPS). A voice or direction arrows in the display will guide you to your destination.

When you aren't using the voice direction feature on your navigation system, the standard 420-watt harman/kardon[®] LOGIC7[®] surround sound system gives you unparalleled sound quality from every seat with 12 precisely-placed speakers. SIRIUS Satellite Radio² is now standard, featuring more than 110 premium channels of the best commercial-free music, sports, talk and entertainment. A world of sonic options is at your fingertips.

Other features include full Bluetooth connectivity, plus PARKTRONIC – an audio-visual parking assistance system that uses ultrasonic sensors in the front and rear bumpers to detect obstacles. The THERMOTRONIC automatic climate control system allows occupants to set their own individual temperature and airflow preferences. Sensors continuously monitor the interior temperature and insulation level, adapting fan speed as required.

¹Not available in conjunction with the AMG Sport Package. ²Monthly subscription required for service.

We like to keep you in suspense.

What kind of ride would you like your CLS-Class to have – one that maximizes its sporty handling potential or one which puts the emphasis on comfort? With the AIRMATIC DC air suspension system, you can make your choice at the touch of a button. Instead of conventional coil springs, an electronic system adjusts the setting of the air springs by using compressed air to create a harder or softer set-up to suit the given situation. If the sensors register sporty driving, the comfortable basic suspension automatically becomes firmer. Spring rates and damping can also be adjusted manually.

The AIRMATIC DC air suspension system also includes the Adaptive Damping System (ADS). The fully automatic electronics operate with four different damping stages which adjust the damping force at each wheel as required at any given moment. The result: The ride is beautifully smooth and directional stability is not impaired by poor road surfaces.

D S 0C 7661

History has a way of repeating itself.

The CLS-Class redefines what a coupe can be, without losing sight of what a Mercedes-Benz must be: passionate, innovative and athletically gifted. The victorious Mercedes Silver Arrows were descended from the Daimler-powered car that won the world's first auto race. The CLS-Class shares this bloodline, along with the heritage of some of the world's most treasured coupes.

The powerful V-8 engine is smooth and supple, and comes with a mighty 391 lb-ft of torque. Its four valves per cylinder combined with the continuous camshaft adjustment on the inlet and exhaust sides produce the engine's staggering output of 382 hp, 80 hp over its predecessor. Simply put, the CLS will take you from 0-100 in a brisk 5.4 seconds. The 7G-TRONIC automatic transmission is a perfect match for this kind of power, and will shift at a higher rpm when spirited driving is sensed, or glide smoothly to maximize fuel efficiency.

Smooth operator.

The experience of a CLS-Class is unforgettable. There is no mistaking the smoothness of the ride. Imagine a car that lets you rule the road. In this four-door coupe, every trip becomes a real pleasure, whatever the distance. Best of all, wherever you go, we can guarantee it will be an easy drive.

Seven gear ratios provide a larger ratio spread and can react on the basis of smaller differences in engine speed. This produces faster shift operations which, in turn, make for smoother running and improved ride comfort. The 7G-TRONIC automatic transmission employs the multiple downshift principle. This means that a number of gears can be skipped when shifting down. 7G-TRONIC also helps to reduce fuel consumption and emission levels. The added AMG SPEEDSHIFT enhancements on the CLS63 AMG offer even sportier gear changes along with shift paddles on the steering wheel.

The high-performance bulbs used for the tail lights have a longer service life and consume less electrical power than standard bulbs. LED technology delivers a faster brake-light response. The headlamps rest behind scratch-resistant polycarbonate lenses.

We have a few bright ideas.

Driving can be relaxing and exciting at the same time if the conditions are right. The lighting technology in the CLS-Class is designed to help create those conditions. Bi-Xenon headlamps with active light and cornering light functions are standard. The active light function moves the headlamp beams in concert with the driver's steering movements, thereby improving the illumination of curves and bends. The cornering light function provides additional illumination during cornering by turning on the right or left front fog lamp when required. Furthermore, the side lights use LED technology for a highly-focused beam.

Safety should always be standard.

Protection prior to and during critical situations with PRO-SAFE™, the safety philosophy from Mercedes-Benz, does away with the traditional approach of separating the issue of safety into individual active and passive safety systems. Instead, we implement a forward-thinking, integrated safety philosophy.

As a part of PRO-SAFE™, PRE-SAFE® is based on the principle that the valuable seconds between an accident risk being detected and the accident actually taking place should not be wasted. In critical moments, all safety features not only coordinate effectively, but quickly. For example, the ADAPTIVE BRAKE system helps to optimize other safety functions, such as our Electronic Stability Program (ESP®), traction control (ASR), anti-lock brakes and Brake Assist (BAS)¹.

If an accident should occur, the crash-responsive NECK-PRO head restraints for the driver and front passenger, as well as the front, side and window curtain air bags, can be activated in accordance with the type and severity of the impact. In the event of a frontal collision, intelligent sensors determine whether the impact is a minor one or more severe and adjusts the inflation of the two-stage front air bags accordingly.² In a front or rear-end collision exceeding a specific threshold, belt tensioners on the front and back seats instantly pull the belts tight against the occupants.

Safety is a must in the CLS-Class. There are front, side and window curtain air bags to provide you with maximum safety.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. ²WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats.

AMG

Increasing your heart rate in under 4.5 seconds.

The CLS63 AMG: Out of sight in no time, but never out of mind when you get from 0 to 100 km/h in just 4.5 seconds. This breathtaking performance created by the vehicle is propelled by the most powerful, naturally aspirated V-8 engine in its class at the present time. Its awe-inspiring data reads as follows: 503 hp and 465 lb-ft of torque. The AMG sport suspension, based on the AIRMATIC DC air suspension system, and the AMG high-performance braking system with composite brake discs have been tuned accordingly.

Wherever the CLS63 AMG appears, its attractive AMG body-styling – featuring dynamic front and rear aprons, AMG 19" 5-spoke alloy wheels, side skirts and the two chromed twin tailpipes of the AMG sport exhaust system – is a magnet for envious glances. AMG body-styling as well as AMG 18" 5-twin spoke alloy wheels are available for the CLS550¹.

¹Optional on the CLS550 as part of the AMG Sport Package.

Magnificence: The inside story.

The sleek, eye-catching exterior lines continue through the interior, where leather and wood are king. The AMG interior is covered in the finest AMG Nappa leather in Black, Cashmere Beige or Alpaca Grey. Looking through a four spoke steering wheel, three chronometer-type gauges and two LCD bar graphs in the instrument cluster are accented by chrome rings and more wood trim.

The 7G-TRONIC automatic transmission with AMG SPEEDSHIFT programming makes for 35% faster gear changes and the three shift modes via aluminium shift paddles on the AMG sport steering wheel ensure that this formidable power is delivered instantaneously.

Four-zone THERMOTRONIC climate control regulates temperature separately for each front and rear seat. The rear passengers have their own digital control panel for setting temperature and adjusting airflow.

It's the little things that matter.

You never get a second chance to make a first impression, so follow your instincts and give your CLS the external finish and interior appointments you've always dreamed of. For a particularly individual touch, you can choose from the wide range of *designo* metallic paint finishes and leather colours. Settle back into the comfortable seats upholstered in the finest *designo* leather with decorative double topstitching. Cast your eyes over the roof lining which integrates harmoniously with the overall design concept. The *designo* trim elements in fine wood or stylish Black Piano Lacquer complete a look that virtually transforms the car's interior. But there's no need to worry, it's still a CLS-Class – it's just that now it's more irresistible than ever. The *designo* appointments are available separately in any number of different combinations.

Please see your dealer for details.

Paint yourself out of a corner.

Express yourself with an array of beautiful paint finishes. Whether solid or metallic, they benefit from a scratch-resistant clear coat which makes them less susceptible to the effects of weather and environmental conditions such as precipitation, sunlight, temperature variations, dust and soot.

TeleAid operates only where cellular and Global Positioning System coverage is available.

Make it more aggressive, just for the sport of it.

Interested in ramping up your CLS? Take the CLS550 with the AMG Sport Package as an option. You'll get the AMG body kit with front and rear bumpers, fitted side skirts for an extremely athletic and commanding appearance. Aggressive AMG 18" 5-spoke wheels with staggered width performance tires (255/40 R 18 in the front, 285/35 R 18 in the rear) give you even better handling.

Inside, the CLS550 AMG Sport Package offers pulse-raising steering wheel shift paddles which allow you to property command the 7G-TRONIC Sport transmission.

**18" 7-spoke
"Menket" alloy wheels**

Design at its finest: The 7-spoke alloy wheels are available as an option exclusive to the CLS. Separately, you can pair these attractive rims with 245/40 R 18 tires on the front, and 275/35 R 18 tires on the rear.

Ski rack

Driving to the slopes is now even more fun than skiing down them. Thanks to the new Alustyle ski and snowboard rack, you can take your hobbies with you safely. The standard version is designed to hold up to 4 pairs of skis or 2 snowboards while the luxury version can accommodate up to 6 pairs of skis or 4 snowboards.

Trunk nets

Safely stowed: numerous well thought-out details make the trunk of the CLS-Class an even more practical space, including two luggage nets on the side walls, designed to keep shopping bags upright when the car is on the move.

iPod® Integration Kit

You've spent time carefully filling your iPod® with the great music you love. Now you can enjoy every minute of every song as you cruise in your CLS-Class, courtesy of the iPod® Integration Kit.

A style unto your own.

Your CLS-Class should be tailor-made. Mercedes-Benz offers a wide range of elegant and practical accessories. From show-stopping wheels to the iPod® Integration Kit, we create what we know is important to you. A Mercedes-Benz is never complete until it fits your lifestyle.

The actual fuel consumption of this vehicle may vary. Refer to the *Fuel Consumption Guide*. ⁴Dimensions shown are for models with standard equipment.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz. And to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear", such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternate travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

Looking for more Mercedes-Benz information? Visit mercedes-benz.ca to open an online window to Mercedes-Benz Canada. Get information about any model, including financing and leasing options, upcoming vehicles, or purchase Mercedes-Benz the Collection gifts and personal accessories. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, Mercedes-Benz Ownership, and the history of Mercedes-Benz.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.
