MERCEDES-BENZ OWNERSHIP AND WEBSITE	49

Even the road will hear your heart pounding.

Asphalt may be no feast for the eyes, but it's been getting Mercedes-Benz drivers excited for over 120 years. That same passion for the road was the inspiration for our newest interpretation of driving pleasure.

From the interior to the latest innovations in drive technology, few cars can compete with the C-Class' ability to adjust so many facets of its character. Its capacity for meeting personal needs is beyond comparison and it adapts to external conditions with speed and precision. The keys to this flexible driving response are the standard-fit AGILITY CONTROL steering, suspension and selective damping.

With a range of exceptional engines and transmissions to choose from, the C-Class will suit the most discerning of tastes. You'll find that the upgraded interior offers noticeably more space and a more distinctive atmosphere thanks to luxurious materials, intuitive controls and a new cockpit design.

Whether you choose the dynamic new grille and body design or the traditional look, the new C-Class is the perfect embodiment of the Mercedes-Benz philosophy.

As nimble as it is quick.

The new C-Class is an authoritative presence that demands attention. Taut lines lend an air of effortless superiority. The distinctive rear section and wide radiator grille establish its dominance on the road. But looks are only part of the story.

You'll find that the C-Class is equipped with innovative technical systems that deliver a driving experience unequalled in its class. Among the highlights is the new AGILITY CONTROL suspension. Its selective damping system makes automatic, continuous adjustments to the suspension set-up in accordance to the ever-changing conditions of the road. This makes for a consistently enjoyable ride no matter what curves are thrown at you.

Handle the weather as easily as the winding road by choosing our award-winning 4MATIC™ permanent all-wheel drive system available on all C-Class models. 4MATIC™ not only improves grip on slippery roads as a measure of proactive safety but offers a noticeably more dynamic driving experience on dry roads.

Energy meets synergy, power meets confidence.

Exceptionally smooth and refined, the C-Class' three DOHC V-6 engines have a passion for performance. The lightweight alloy construction reduces weight, improving vehicle stability and fuel efficiency. These power plants also boast continuously variable timing of the intake and exhaust valves with an advanced system that optimizes the engine's breathing at every rpm range. This means a broad, flat torque curve as well as lower emissions. It's always a smooth ride thanks to a unique balancer shaft that ensures quieter engine operation and reduces overall vibrations.

C230 2.5-LITRE V-6

201 hp and 181 lb-ft of torque make for outstanding responsiveness. Variable valve timing bestows it with an incredibly broad power band for swift acceleration and passing performance.

C300 3.0-LITRE V-6

228 hp and 221 lb-ft of torque assures you rapid response whether taking off from a stop or merging onto a crowded highway.

C350 3.5-LITRE V-6

268 hp and 258 lb-ft of torque means our most powerful C-Class offers tremendous performance for any driving situation.

Ahead of the game because we've stepped it up a gear.

The C230 and C300 sedans are fitted with a 6-speed manual transmission and the new AGILITY CONTROL gearshift, which offers more responsive gear shifting thanks to direct transmission via shift rod.

Fitted standard on the C350 and 4MATIC™ models is 7G-TRONIC, the world's first 7-speed automatic transmission! This engineering masterpiece ensures barely perceptible shifts through the entire gear range. Along with intelligent transmission programming that learns and adapts itself to your personal driving style, 7G-TRONIC can skip several gears for responsive stopping power or when downshifting for quick bursts of speed. It also boasts a second reverse gear with a higher transmission ratio to make pulling away on ice and snow easier and safer.

¹Optional for the C230 and C300. Standard on the C230 4MATIC™, C300 4MATIC™, C350 and C350 4MATIC™

If the going gets rough you won't even notice.

The C-Class has always been known as an outstandingly comfortable ride. Still, we challenged our engineers to outdo themselves. And they pulled it off. The new C-Class sets the standard for comfortable suspension and low interior noise levels.

The new C-Class now features a selective damping system. The standard-fit AGILITY CONTROL package automatically adjusts the dampers at each wheel to a harder or softer setting according to the given situation. It translates into a noticeably smoother ride than conventional dampers, particularly on poor road surfaces.

As a driver, staying relaxed at the wheel also means interior noise levels should be low. We kept this in mind when re-designing the C-Class. To eliminate wind noise more effectively, we have optimized the shape of countless bodywork details and improved the sound insulation.

For those desiring an even livelier feel on the road, the C-Class offers a premium Sport Package¹. With a sport-tuned suspension, upgraded brake calipers and a motorsport-inspired three-spoke steering wheel, even a trip to the corner store can get your heart rate up.

¹Optional on the C230 models. No-charge option on the C300 models. Standard on the C350 models.

Softer shock absorber characteristics ensure an extremely smooth ride in normal mode. For dynamic driving, the full damping force is made available to stabilize the vehicle on the roughest roads.

Confidence in any weather.

Sheets of rain, blankets of snow or heat waves rising from the asphalt: conquer it all by opting for the most advanced all-wheel drive system in the field. Proven in the flagship S-Class sedan, our fourth-generation 4MATIC™ permanent all-wheel drive system is a perfect fit for the new C-Class.

This award-winning all-wheel drive technology incorporates our 4-Wheel Electronic Traction System (4-ETS) which monitors each wheel for the first sign of slippage¹. The system is always engaged and can individually brake slipping wheels to maintain the balance of power or reduce excess torque. 4MATIC™ splits the distribution of the engine power between the front wheels (45%) and the rear wheels (55%) in order to enhance both safety and performance.

Envid amongst other all-wheel drive systems, 4MATIC™ has a more simple and lightweight design that lends itself to better mechanical performance and improved fuel efficiency. 4MATIC™ also works seamlessly with our Electronic Stability Program (ESP®) and acceleration skid control (ASR) system to enhance your all-wheel drive advantage and offer a greater level of proactive safety.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires.

A five star hotel you park in the garage.

Open the door to your new C-Class and the lush interior will pull you down into its ARTICO leather¹ upholstered seats. At the push of a button the power-adjustable heated front seats² remember your personal settings and that of two other drivers³ should you be sharing your motorized oasis.

Every detail of the interior has been painstakingly designed and your every need enthusiastically met. The ergonomic seats have been slightly raised, giving your shoulders and elbows more room. Any passengers along for the ride will appreciate the extra room to stretch their legs. Surround yourself with a choice of hand-finished wood or metal trim, in Calyptus⁴, high gloss Burl Walnut⁵, sporty Aluminium⁶ or elegant Black Bird's Eye Maple⁷.

The abundance of sensual luxuries continues as you wrap your hands around the leather-fitted multifunction steering wheel and command the MP3-compatible CD player and SIRIUS Satellite Radio⁸. The C-Class intuitively knows when to turn the music up as you accelerate or pause for an incoming call on your Bluetooth-enabled cell phone.

Automatic and individual temperature control settings keep all travellers comfortable, even when sunshine is pouring through the sliding glass sunroof⁹.

Now even the longest trips will be over too quickly.

¹Man-made leather. ²Heated front seats optional on the C230 models or available as part of the Premium Package. Standard on the C300 and C350 models. ³3-position Memory Package available as part of the Premium Package on the C300 models. Standard on the C350 models. Not available on the C230 models. ⁴Standard on the C230 models. Not available on any other models. ⁵Standard on the C300 models. Not available on any other models. ⁶Available on the C230 and C300 models as part of the Sport Package. You work hard. Let us take it from here.

A driving environment that allows you to concentrate on the task at hand is not just a luxury; it's a major safety feature. It all starts with a well-designed driver's area. The new dashboard is horizontally structured and positioned higher than the previous design. The three-dial instrument cluster is in your immediate field of vision to provide information about key operating functions. Between the dials, the LCD screen lets you know what radio station or CD track is playing and audio controls lie conveniently under your fingertips on the leather-wrapped multifunction steering wheel.

The internal atmosphere is just as easily adjusted. At the touch of a button, the dual-zone THERMATIC automatic climate control¹ adjusts and maintains two separate temperature zones keeping both you and your front passenger both in perfect comfort.

Standard on the C350 models is the advanced three-zone THERMOTRONIC automatic climate control system². Using advanced solar, air quality and dew point sensors it maintains ideal comfort levels and allows the temperature of the rear passenger area to be set independently.

At Mercedes-Benz, it's our pleasure to fuss over such details.

With the KEYLESS-GO³ feature, open the door and start the engine before the keys even leave your pocket.

¹Standard on the C230 and C300 models. Not available on the C350 models. ²Standard on the C350 models. Not available on the C230 and C300 models. ³Optional on the C300 and C350 models or available as part of the Premium Package. Not available on the C230 models.

You'll never want to stand again.

When developing new front seats for the C-Class we had fastidious tastes in mind. Whether draped in ARTICO¹ or the hand-fitted full leather upgrade², the 8-way power-adjustable front seats conform to your every curve. Your personalized comfort levels can also be remembered by means of the Memory Package³. Exact seat configuration, head restraint height, steering wheel and mirror positions are all recalled at the touch of a button. And when you can see your breath outside, the heated front seats⁴ will keep you toasty inside.

Rear passengers are also catered to, with more leg and headroom than before. Opting for the rear window sunshade⁵ or the rear temperature controls as part of the THERMOTRONIC automatic climate system⁶ will only increase the carpooling requests.

Hitting the slopes or the back 9? If you need more than the 475 litres of existing cargo space in the trunk, the split-folding rear seats⁷ offer added versatility for longer items such as skis and golf clubs.

¹Man-made leather. ²Optional on all models. ³Available as part of the Premium Package on the C300 models. Standard on the C350 models. Not available on the C230 models. ⁴Standard on the C300 and C350 models. Optional on the C230 models. ⁵Available as part of the Premium Package on the C300 and C350 models. Not available on the C230 models. ⁶Standard on the C350 models. Not available on the C230 and C300 models. ⁷Standard on the C300 and C350 models. Not available on the C230 models.

From silence to symphonic.

A virtually silent interior is the first step in creating the perfect sound system. Positioned for optimal acoustics within the C-Class, the speed-responsive loudspeakers will automatically match the enthusiasm of the engine, turning the music up as the pedal goes down. When you really want to push the decibel level on the standard MP3-compatible CD player and AM/FM weatherband radio, do so safely and conveniently with intuitive steering wheel controls.

Those who appreciate truly exquisite sound will savour the harman/kardon® LOGIC7® surround sound system¹, allowing you to recreate a premium concert-hall experience at the touch of a button. An in-dash CD changer and 9-channel DSP (digital sound processing) amplifier maximize 12 loudspeakers and 450 watts of audio fidelity.

The 4.5" colour display lets you know exactly what's on 110 channels of SIRIUS Satellite Radio² or what play list is spinning on your MP3 player, connected via auxiliary input in the glove box.

Expecting an important call? Standard Bluetooth integration lets you keep both hands on the wheel and won't let you miss a word of the conversation.

¹Available as part of an option package on the C230 and C300 models. Standard on the C350 models. ²Optional on the C230 and C300 models. Standard on the C350 models. Monthly subscription required for service.

Complete control in the palm of your hand.

Control over such a technologically advanced piece of machinery has never been made simpler. The COMAND APS control and display system¹ combines navigation, audio and telephone into one intuitive design. Its newly developed interface has extended functionality but is more intelligent and user-friendly than ever before, with no need to change navigation DVDs thanks to an internal hard drive storage system.

Following driving directions on the unique pivoting 7" display screen has been made safer and easier with ideal positioning in your field of vision. With new high-resolution graphic elements and colours, the course is laid out with added precision and clarity so you always arrive composed and on time.

COMAND APS is controlled by input buttons in the centre console or with the S-Class-inspired circular control button that falls conveniently to hand in the armrest. Easier still, all key functions can now be called up by means of the LINGUATRONIC voice recognition function¹. The destination input section of the navigation system has whole-word recognition capability for points of interest and road names. You can dial up a phone number simply by saying the person's name and even set the system up to read your text messages aloud. As an added audio function, you can store hundreds of MP3s on the COMAND APS hard drive.

The armrest is designed in such a way that the controller automatically falls to hand. It offers a particularly fast, easy and intuitive way of adjusting the full range of COMAND APS settings.

¹Available on the C300 and C350 models as part of the COMAND Navigation Package. Not available on the C230 models.

NYNÄSVÄGEN

2km

Keeping you safe by keeping you focused.

While we are proud of our 120 year heritage, Mercedes-Benz has always focused on the future. Our vision of accident-free driving is being realized through the PRO-SAFE™ philosophy. This integral safety concept from Mercedes-Benz begins by recognizing that the majority of accidents start long before the actual collision, from lapses in concentration, poor visibility or an unexpected hazard.

The C-Class is fitted with safety systems that promote relaxed driving to help you bring critical situations under control. The ergonomic seat design keeps you superbly comfortable while the multifunction steering wheel with audio control buttons allows you to keep both hands on the wheel at all times. With Bi-Xenon headlamps¹ you'll get an even clearer view of what's ahead with cornering lights to illuminate potential obstacles while turning.

When driving, you can also count on over 60 electronic support systems. Some are designed to alert you in the event of a problem – such as the Brake Pad Wear Indicator – while others are there to provide active assistance, such as the Electronic Stability Program (ESP®) and Brake Assist (BAS). The ESP® sensors can detect hazardous driving situations, such as pronounced oversteer or understeer, dramatic steering movements, emergency and panic braking and can assist the driver accordingly². Complementing the ESP® and anti-lock brakes, Brake Assist recognizes emergency braking by the speed at which you apply the brake pedal. When emergency braking is detected, BAS instantly applies full brake pressure. This compensates for a driver's tendency to apply less brake pressure than necessary in panic situations.

¹Standard on the C300 and C350 models. Not available on the C230 models. ²No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires.

We've thought about this so you don't have to.

Numerous occupant protection systems can significantly reduce the risk of injury in the event of an accident. In case of a rear-end collision, sensors cause the standard-fit NECK-PRO head restraints in the front seats to deploy in a matter of milliseconds to reduce the distance between the seat occupant's head and the head restraint to reduce the risk of whiplash.

The C-Class is further equipped with belt tensioners on the front and outer rear seats and numerous airbags. These include two-stage driver and front passenger airbags¹, side air bags, and window curtain air bags whose protection zone covers virtually the entire area of the side windows. The side air bags and window curtain air bags are also triggered by pressure sensors: if the door deforms in a side-on collision, the increase in air pressure between the outer door panels and the interior of the door is registered by the pressure sensors, notifying the control unit to deploy the airbags.

We've packed as many safety features as we could into the new C-Class in hopes that they'll never be needed.

¹WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats.

Even when it's down it's not out.

To prevent further damage following an accident and to assist with rescuing the occupants, the C-Class takes various measures depending on the type and severity of the accident. The engine turns off automatically and the fuel supply is cut. Hazard lights warn other drivers and emergency interior lights are automatically activated. Side windows are partially lowered and if necessary, doors are automatically unlocked. Cutting points on the windshield and rear window help emergency responders identify the sections of the A and C pillars that can be cut if it is necessary to tear off the roof.

Should an air bag or Emergency Tensioning Device be activated, the vehicle can engage the optional TeleAid System¹, putting your vehicle in touch with the TeleAid Emergency Response Center, where trained specialists can assess the situation and alert emergency services quickly and efficiently.

Mercedes-Benz understands that when it comes to safety, time is of the essence.

¹Subscription is required for service to be active. TeleAid operates only where cellular and Global Positioning System coverage is available. Optional on all models.

Style points will be awarded.

Colour is the most personal choice of all. So which one expresses you best? And which interior do you choose to live in? After all, the perfect finishing details are what make an automotive masterpiece. And here's a reassuring thought: both solid and metallic paint finishes benefit from an extra scratch-resistant clear coat. This makes your colour less susceptible not only to scratches, but also to sunlight, temperature variations, dust and soot.

Luxury indulged.

Each C-Class model has a unique Premium Package to take it to its ultimate expression.

C230 AND C230 4MATIC™

Heated front seats will warm you quickly when winter's blowing hard outside. And when summer finally comes around the power-tilt/sliding glass sunroof welcomes the sunshine. Auto-dimming mirrors cut glare when the sun beats down or you're catching headlights in the rear-view mirror at night. Exterior power folding mirrors round out the C230 Premium Package and let you slide into a tight spot.

C300 AND C300 4MATIC™

Your auditory senses will be indulged if you opt for the impressive C300 Premium Package including the harman/kardon® LOGIC7® surround sound system with an in-dash MP3-compatible CD changer. 110 channels of SIRIUS Satellite Radio¹ will ensure even the most discerning tastes are fulfilled. The upgrade to 10-way power adjustable front seats with 3-position memory satisfy you and the most particular guest and for anyone in the backseat, a rear window sunshade will keep them cool. And after a long commute, the integrated garage door opener makes life even more convenient.

C350 AND C350 4MATIC™

Pulling out all the stops for the C350 Premium Package, the COMAND APS control and display system with hard drive-based navigation keeps you in total control. Your audio capabilities are heightened with a DVD changer and PCMCIA interface for reading and transferring up to 4GB of MP3s from memory cards. Enjoy your own private observatory any evening with an expansive panoramic sunroof, with a rear window sunshade to keep your passengers cool in the summer. The ultra-convenient KEYLESS-GO feature and LINGUATRONIC voice control function top off the most luxurious C-Class ever.

¹Monthly subscription required for service.

The final touch for a great first impression.

From practical to just plain stylish, there's a wide selection of genuine Mercedes-Benz accessories to choose from. We've got plenty of storage systems for all your extra gear or further refine your new C-Class with incenio designer wheels or a powerful looking roof spoiler. For details on our full range of accessories ask your local Mercedes-Benz dealer.

"Puhala" 18" 5-twin spoke incenio alloy wheels

It's hard to go unnoticed in your new C-Class. Make it even harder. Finished in sterling silver, "Puhala" incenio wheels were designed exclusively for the new C-Class.

Multifunction Roof Rack

Have gear stored safely with the "Easy-Fix" attachment system. Secure your skis and snowboards into the double level rack or attach the roof box onto the multifunction base and store the extras inside.

QUICKPARK

We've even made parking easier with the QUICKPARK system. It uses ultrasonic sensors and acoustic warning signals to keep you from bumps when trying to fit into a tight spot.

iPod® Integration Kit

Choose your favorite playlists from the multifunction steering wheel with the iPod® Integration Kit. It seamlessly integrates into your car's audio system; choose the artist, album or track right from the dashboard display.

¹Stated rates of acceleration are based on manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load. ²Electronically limited. ³These estimates are based on Transport Canada testing methods. The actual fuel consumption of this vehicle may vary. Refer to the *Fuel Consumption Guide*. ⁴Dimensions shown are for models with standard equipment.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz. And to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear", such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternate travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.
