

2008 M-CLASS
M

Mercedes-Benz

Built for the road, or a lack thereof.

There are many places worth visiting simply because they are off the beaten track. The 2008 M-Class is sure to get you there in comfort and in style. Whether you're heading through rough terrain or just facing difficult weather conditions, the M-Class is ready to tackle whatever lies ahead.

With all the features you'd need for off-road driving, it is infinitely capable of handling the obstacles you'll run across in the urban jungle. Be it potholes, construction, standing water or black ice, the M-Class makes the hazards of city driving disappear.

Its standard 7G-TRONIC 7-speed automatic transmission and 4MATIC™ permanent all-wheel drive with Electronic Traction System (4-ETS) give you unparalleled control and ride comfort. Its robust engines ensure plenty of power. Its ergonomic seats and luxurious interior provide a comfortable ride on even the most bone-jarring routes. The M-Class has everything you could ever want in a luxury SUV.

MERCEDES-BENZ OWNERSHIP AND WEBSITE	37

Bold in spirit, bold in design.

With the M-Class comes an automotive presence like no other. It's an aura of power, excitement, and accomplishment. The striking visual presence begins at the front end, with dramatically styled headlights and an aggressive grille. The sloping hood leads the eye to pleasing lines along the sides of the vehicle, directly above strong, impactful wheel wells. This visual journey concludes at the rear of the M-Class, where the lines abruptly merge and fade away into a functional, yet elegantly designed fifth door.

With rich and stunning details like alloy wheels, tinted glass, and chrome accents, the exterior of the M-Class makes a bold visual statement that perfectly complements the power within.

Once you step in, you won't want to step out.

The generous use of space and high-quality materials inside the M-Class ensure the highest degree of comfort. The moment you open the doors, your gaze is drawn to the bold interior design featuring exquisite ARTICO leather¹ seats, luxuriously refined fine wood trim, and a well-designed intuitive cockpit.

Standard features abound, like the COMAND control and display system, the harman/kardon[®] LOGIC7[®] surround sound system with an MP3-compatible 6-disc CD changer and SIRIUS Satellite Radio featuring more than 110 premium channels of the best music, sports, talk and entertainment. Benefit from full Bluetooth capabilities that allow for safe, hands-free cell phone use while driving. Complete the experience with the COMAND APS with navigation²

Conveniently, the multifunction steering wheel can be used to call up vehicle data, operate the radio and telephone, and even change gears using the shift buttons. THERMATIC automatic climate control³ maintains an optimal temperature, as well.

¹Man-made leather. Standard on the ML320 CDI and ML350 4MATIC™ ²Optional on the ML320 CDI, ML350 4MATIC™ and ML550 4MATIC™ as part of the Premium Package. Standard on the ML63 AMG. ³Standard on the ML320 CDI and ML350 4MATIC™

Manipulate space at will.

The M-Class has plenty of headroom and legroom to ensure that everyone on board is comfortable. Should you need more room for luggage, the rear seat can easily be folded forward. The rear seat has a 1/3 to 2/3 split, allowing both sections to be folded forward separately.

You won't have to be too selective when deciding what to take with you in your M-Class. With load space between 833 and 2,050 litres, it certainly won't cramp your style. Securely stow smaller objects in the convenient side storage compartments, and for ultimate control, opt for the power tailgate with push-button operation¹.

¹Available as part of an option package on the ML320 CDI and ML350 4MATIC™

Sometimes a cage can be very liberating.

The M-Class features an extremely sturdy passenger cage that protects occupants by way of energy-absorbing front-end, reinforced doors, extended crumple zones, and an elevated ride position. The passenger cage is built on an exclusively designed SUV-specific uni-body that is exceptionally strong, lightweight and rigid. Its remarkable resistance to twisting and flexing leads to more precise handling, and a smoother, quieter ride.

Front seat passenger protection is further enhanced by our NECK-PRO head restraints. In the event of a rear-end impact, pre-tensioned springs push the head restraints on the driver and front passenger seats forward, bracing the heads of the front seat occupants and reducing the risk of whiplash.

Our NECK-PRO head restraints are sensor-controlled.

The M-Class starts and ends with safety.

Mercedes-Benz has always been a leader in safety innovation. Here are the details on a few of the benchmarks.

ELECTRONIC STABILITY PROGRAM (ESP®)

The M-Class' Electronic Stability Program (ESP®) enhances directional control by monitoring your steering and braking. It will make instantaneous adjustments if it senses loss of control or stability. If it senses oversteer or understeer, ESP® will apply the brakes and adjust engine torque to any combination of the four wheels to help you regain control and stay on course¹.

ACTIVE BI-XENON HEADLAMPS

Active Bi-Xenon headlamps² with headlamp washers and cornering lights provide better vision over long distances. They also actively swivel to either side based on your steering and driving speed, so you can better see what's happening around curves.

ADVANCED SEAT BELTS AND AIR BAGS

All five seat belts feature Emergency Tensioning Devices (ETDs), which help remove seat-belt slack in a sufficiently severe front or rear impact. Our advanced multi-stage front, side and window curtain air bags provide unequivocal passenger protection³.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. ²Available as part of an option package on the ML320 CDI and ML350 4MATIC™ ³WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats.

Permanent confidence. Relentless control.

Our 4MATIC™ permanent all-wheel drive system gives you excellent control over your M-Class, so you can drive with complete confidence, no matter what the season or road conditions. It is always engaged, relentlessly sending torque to each wheel independently, ensuring optimal traction and control.

4MATIC™ is aided by our 4-wheel Electronic Traction System (4-ETS). 4-ETS monitors each wheel for the first sign of wheel slip. It then individually brakes the slipping wheels to maintain the perfect balance of power and traction. By continuously ensuring that more power goes to the wheels with more grip, 4-ETS can help keep you moving, even if only one wheel has traction.

The powerful sound of silence.

It's amazing how quiet the six cylinder M-Class CDI diesel engine runs while delivering exemplary power in any driving condition. The state-of-the-art diesel power plant features third-generation common-rail direct injection technology, and comes with a standard diesel particulate filter. The ML320 CDI has a maximum power output of 215 hp, impressive 398 lb-ft of peak torque, a top speed of 215 km/h and a 0 to 100 km/h acceleration time of 8.6 seconds. And yet, its low fuel consumption rivals that of a hybrid. With seamless performance and up to 950 km per tank, the M-Class CDI diesel brings new meaning to a win-win situation.

The ML320 CDI's third generation engine design helps maximize both engine efficiency and driving pleasure.

The power to move you.

The gasoline engines available for the M-Class provide the power and responsiveness you need to have an outstanding driving experience.

The V-6 engine in the ML350 4MATIC™ provides high power and torque levels in combination with improved fuel economy and low emissions. It has 268 hp and maximum torque of 258 lb-ft.

If V-8 power and smoothness are what you want, look no further than the ML550 4MATIC™. Despite its high power output, this engine consumes less fuel than you'd expect. And while it's hard to do justice to the pure power of the ML550 4MATIC™ in words, it is easy to put a figure on it. It has 382 hp and maximum torque of 391 lb-ft. This allows it to accelerate from 0 to 100 km/h in less than six seconds.

Take ride comfort to a whole new level.

The M-Class is fitted standard with the world's first and only luxury SUV 7-speed automatic transmission: 7G-TRONIC. Gears are selected directly, ensuring uninterrupted torque delivery, virtually imperceptible shifts and enhanced ride comfort. Should you need to brake sharply or accelerate quickly, 7G-TRONIC simply skips the necessary number of gears.

7G-TRONIC 7-speed automatic transmission also allows you to downshift manually using the standard DIRECT SELECT shift buttons on the steering wheel if you'd like even more control over gear selection.

Ride like you are on air.

The M-Class takes driving enjoyment to new levels – literally – with the AIRMATIC DC Air Suspension Package¹. When travelling at speed, the ride height of the M-Class is automatically lowered. This minimizes drag, reduces fuel consumption, and improves handling. When you travel with a heavy payload, the air suspension keeps the ride height of the vehicle constant at all times.

Further to these features, AIRMATIC DC also includes the Adaptive Damping System (ADS) with its three manually selectable damper settings: “Auto,” “Sport” and “Comfort.”

Enjoy a refined ride no matter what your driving conditions.

¹Optional on the ML320 CDI and ML350 4MATIC.”

Control the ultimate beast.

The ML63 AMG is the ultimate expression of strength and aggression and is found nowhere else on the road today. It features a front apron with a brushed stainless steel inlay, circular fog lamps ringed in chrome, additional air intakes, and a rear apron with chromed scratch protection. Of course, with a look this sporty, it's important to have the right wheels. The AMG 20" 5-spoke alloy wheels harmonize perfectly with the AMG's style.

The AMG-built, 6.3-litre, naturally aspirated V-8 engine generates 503 hp and a maximum 465 lb-ft of torque, assuring that the ML63 AMG performs beyond your expectations. It lets you accelerate from 0 to 100 km/h in a breathtaking 5.0 seconds. The 7G-TRONIC 7-speed automatic transmission delivers remarkably short shifts. The AMG sport suspension beautifully handles the ML63 AMG's torque, while AMG spring struts, shock absorbers, and the AMG high-performance braking system ensure optimum driving control.

The brightly finished AMG 20" 5-spoke alloy wheel design adds that extra look of power, and is a great compliment to the visually striking M-Class.

AMG

Control the ultimate beauty.

The bold, aggressive styling of the ML63 AMG is the perfect visual complement to its exemplary power. Inside the ML63 AMG you'll find the perfect conditions for top performance. AMG sport seats with Alcantara panels in the shoulder area offer optimum support and are exceedingly comfortable. The AMG ergonomic sport steering wheel with shift buttons and AMG instrument cluster with a lap-clocking RACETIMER add an athletic feel. The AMG Nappa leather upholstery, high gloss Burl Walnut wood trim and brushed stainless steel sport pedals create a suitably aggressive atmosphere.

Select your colour of distinction.

Our cutting-edge nano-particle paint technology gives you a variety of unique metallic and solid paint finishes to choose from. Benefit from the extra scratch-resistant clear coat that keeps colours brilliant, and less susceptible to environmental factors such as precipitation, sunlight, temperature variations, dust and soot. Enjoy over 30% more paint protection than a conventional clear coat.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz. And to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear", such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternate travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.
