

Mercedes-Benz

The All-New 2010 **GLK-Class**

Mercedes interpreted, and defined – the GLK.

The All-New GLK350 4MATIC™ is, in the true sense of the word, a completely original form of Mercedes. In it, two strong personalities merge to create a vehicle concept as distinctive as it is innovative. And yet the new GLK remains true to its roots. Even though this unmistakable off-roader interprets the Mercedes idea in a most independent fashion, the GLK embodies, above all, high standards of agility, safety and comfort, as well as the courage to explore new territory – even before it hits the road.

Strong personalities have distinct appearances.

The absolutely unique design of the new GLK is based on striking lines and represents a bold departure from conventional styling. Distinctive character lines dominate the door areas between the accentuated wheel arches. From the powerful front section to the steep rear, its succinct, angular forms give the GLK a refreshingly self-confident presence, which is all the more remarkable given its relatively compact exterior dimensions. With standard 20" 5-twin-spoke wheels and aluminium roof rails, the styling of the GLK sends out a clear message, no matter which angle it's viewed from.

As attractive inside as it is out.

You want good looks and outstanding reliability in every situation. You want versatility – a spacious island of calm in the urban jungle, but also a superbly ergonomic driving position to help you negotiate challenging terrain when you venture off-road. Then take a seat in the new GLK. You will find right away that the interior picks up on the exterior design: expressive lines and a contemporary approach emphasize the interplay of different surfaces ensuring that the distinctive character of the GLK is clearly reflected. The 10-way power-adjustable front seats can conform to your every curve. As part of the Premium Package, exact seat configuration, head restraint height, steering wheel and mirror positions can all be recalled with the touch of a button, conveniently located on the door panel. And, when the temperature drops outside, the heated front seats will ensure you're staying warm inside.

Down to the smallest detail, outstanding workmanship and materials characterize the interior. The high-quality look and feel is designed to meet even the most exacting standards, and the perfect interior ergonomics make driving the GLK an almost intuitive experience.

Discover the great indoors.

Driving the GLK is all about going your own way. It is now possible to combine the comfort, design and agility of a Mercedes-Benz off-roader with the compact exterior dimensions of a passenger car. And the great thing about it is that the interior belies the vehicle's compact size. In fact, it offers all the passengers a remarkable sense of spaciousness, which makes the elevated seating position and excellent all-round visibility all the more enjoyable.

Thanks to an intelligent space concept and a host of sound ideas for arranging the interior, the GLK boasts the flexibility and practicality required to make it an ideal companion in all situations. The rear bench seat with its armrests and two cup holders features a 1/3:2/3 split-folding design, offering you plenty of scope for variation. Generous legroom and ergonomically designed heated front seats relieve all passengers of would-be physical stresses, as does the panoramic sliding glass sunroof! At the touch of a button, the dual-zone THERMATIC automatic climate control adjusts and maintains two separate temperature zones keeping both you and your front passenger in perfect comfort. Your experience can be further enhanced with the particularly stylish leather appointments, available as an option.

As you can see, the new GLK is able to meet your every wish. Indeed, this exceptional vehicle goes even further – it sets out to inspire you time and time again.

The rear seats have split-folding backrests while the folding centre armrest has an integral stowage facility and two cup holders.

¹Available as a stand alone option.

A feast for your eyes and your ears.

Positioned for optimal acoustics within the GLK, the speed-responsive loudspeakers will automatically match the enthusiasm of your driving, gradually turning up the volume of your music as both your speed and engine purr increase.

Those who appreciate truly exquisite sound can savour the optional harman/kardon® LOGIC7® surround sound system allowing you to recreate a premium concert-hall experience at the touch of a button. An in-dash CD changer and 9-channel DSP amplifier maximize 11 loudspeakers and 600 watts of audio fidelity in true 5.1 channel sound. The 5" colour display lets you know exactly what you're listening to on up to 100 channels of SIRIUS Satellite Radio¹ or what play list is spinning on your MP3 player, connected via auxiliary input in the glove box. Expecting an important call? Standard Bluetooth integration lets you keep both hands safely on the wheel while driving so you don't miss a word of the conversation.

Also available for the true technophile is the COMAND Navigation Package. The COMAND APS system, equipped with an integrated hard-disc drive (HDD) navigation and 6-disc DVD changer, combines navigation, audio and telephone into one intuitive design. The 7" colour LCD display has extended functionality and is more intelligent and user-friendly than ever before. Easier still, all key functions can now be called up by means of the LINGUATRONIC voice control² function. The destination input section of the navigation system has whole-word recognition capability for points of interest and road names. With the COMAND Navigation Package your audio capabilities are enhanced even further with the PCMCIA interface for reading and transferring up to 4GB of MP3s from memory cards. Finally, if you choose the optional Media Interface² in addition to the COMAND Navigation Package, you'll receive 3 different connection cables, one for your iPod®, a USB input for memory sticks and one for an auxiliary audio input.

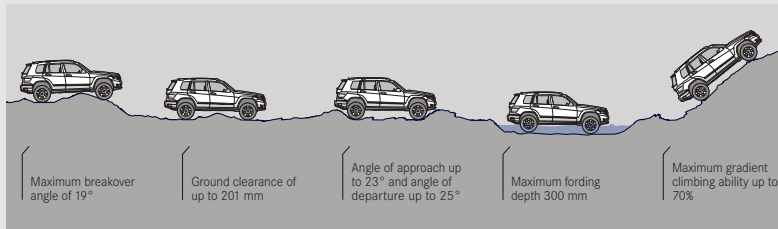

The performance is about to begin.

The GLK doesn't just have the looks of an off-roader – it has the performance to match. Short body overhangs at the front and rear, plenty of ground clearance and our award-winning 4th generation 4MATIC™ permanent all-wheel drive system means that it is equipped to cope with much more than just the occasional foray onto a gravel-surfaced car park. This is because 4MATIC™ always splits the engine's power and torque between all four wheels, both on the road and off it. The resulting boost to traction and directional stability enhances both the vehicle's agility and handling safety in equal measures.

4MATIC™ also works seamlessly with our Electronic Stability Program (ESP®) and acceleration skid control (ASR) system to enhance your all-wheel drive advantage and offer a greater level of proactive safety¹.

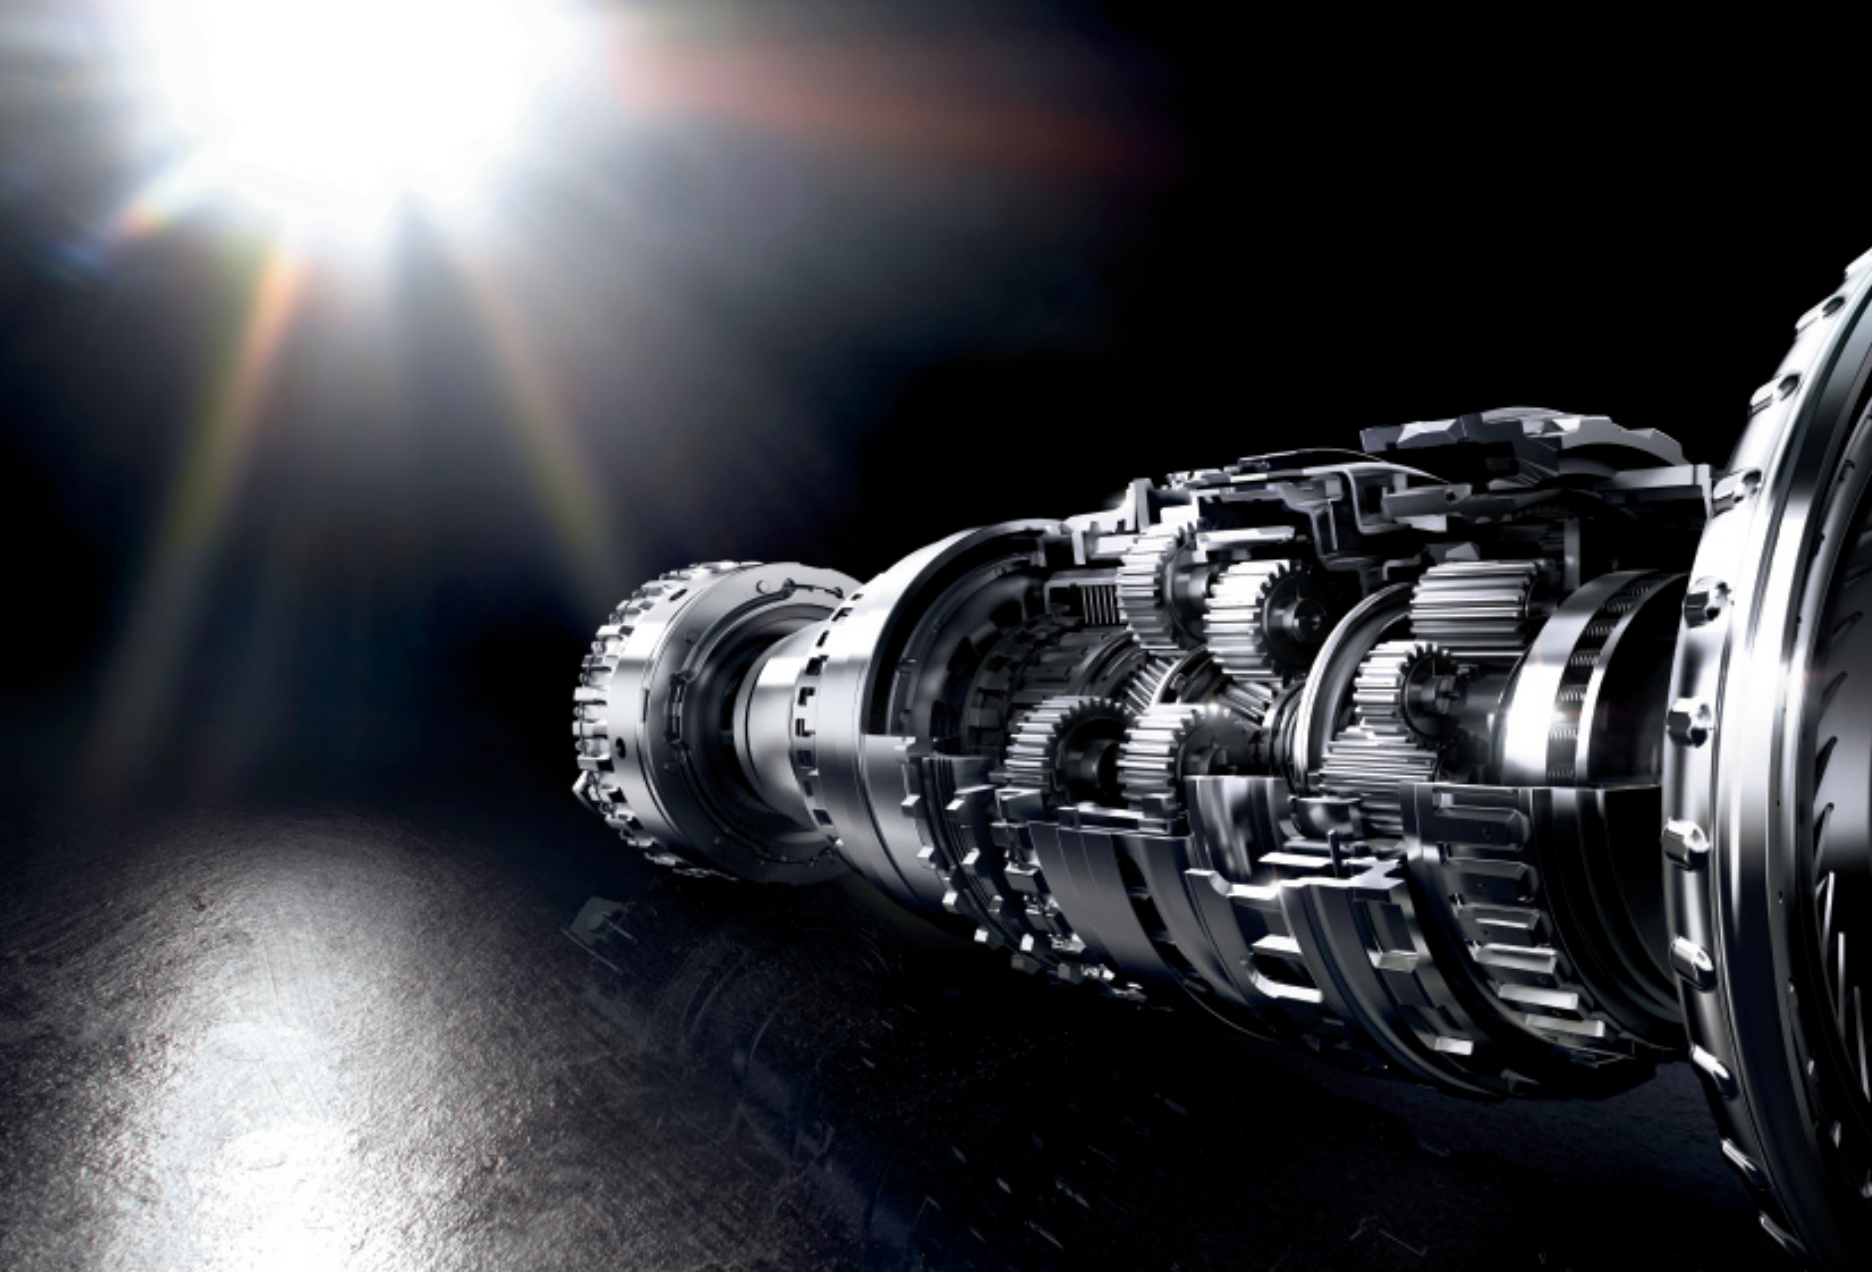

Our 4MATIC™ technology also incorporates our 4-Wheel Electronic Traction System (4-ETS) which monitors each wheel for the first sign of slippage, and can individually brake slipping wheels to maintain the balance of power or reduce excess torque.

By continuously ensuring that power goes to the wheels with more grip, our 4MATIC™ permanent all-wheel drive system gets you to your destination with safety, security, and utmost comfort. This ensures that you get optimum control in all seasons and during all road conditions.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires.

Power and presence in a sleek package.

Lively engine performance and long-distance comfort are far from mutually exclusive in the GLK. On the contrary, this is a vehicle that aims to offer the best of both worlds. So it comes as no surprise that the engine under the bonnet of the GLK stands out not just for its responsiveness but for its abundant pulling power too. The sporty GLK350 4MATIC,[™] 6-cylinder gasoline engine can go from 0 to 100 km/h in 6.7 seconds and musters up a maximum output of 268 hp.

The GLK comes equipped with the highly sophisticated 7G-TRONIC automatic transmission as standard. Thanks to its seven forward gears and the resulting smaller shifts in engine speed, 7G-TRONIC promises extra smooth gearshifts with no perceptible interruption in power flow. Plus, it can also execute multiple downshifts whenever you wish to pick up speed particularly rapidly. What's more, the entire transmission has been optimized for the all-wheel drive system, ensuring that maximum driving pleasure is yours to savour to the full wherever your travels take you.

Put the damper on boredom.

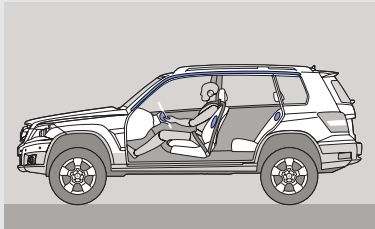

The GLK delivers an extra portion of driving pleasure as standard, courtesy of the AGILITY CONTROL suspension with its unique selective damping system. This system automatically adjusts the suspension set-up to match the current road conditions and driving conditions as requirements dictate. Together with the AGILITY CONTROL steering that is perfectly in tune with the suspension system, it converts the GLK into a genuine all-rounder offering non-stop enjoyment, whether it is driving in the city, powering along open roads or negotiating off-road terrain.

Take a hard line on safety.

You can enjoy the agility of the new GLK all the more thanks to the peace of mind provided by the Mercedes-Benz integrated safety concept. You'll notice it in the raised seating position and good all-around visibility. You'll notice it in the numerous airbags including two-stage driver and front passenger airbags, side airbags, and window curtain airbags¹. Three-point seat belts are standard for all seats, and the front and the outer seats in the rear include inertia-reel tensioners and belt force limiters. And, should an airbag or Emergency Tensioning Device be activated, the vehicle can engage the optional TeleAid System², putting your vehicle in touch with the TeleAid Emergency Response Center, where trained specialists can assess the situation and alert emergency services quickly and efficiently.

ADAPTIVE BRAKE with hill-start assist as well as ESP with the 4-ETS dynamic handling control system ensures that you benefit from the highest possible degree of safety. In a hazardous situation, the Brake Assist system (BAS) instantly calculates and builds up the appropriate brake pressure³.

Active safety systems

- Electronic Stability Program (ESP), including the Electronic Traction System (4-ETS) and Brake Assist (BAS)
- ADAPTIVE BRAKE system

Passive safety systems

- Airbags for driver and front passenger, two-stage
- Front side airbags
- Window curtain airbags
- NECK-PRO head restraints
- Belt tensioners and belt force limiters in the front and for the rear outside seats
- Passenger safety cell

¹WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats. ²Subscription is required for service to be active. TeleAid operates only where cellular and Global Positioning System coverage is available. ³No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires.

Irresistibly beautiful and beautifully resistant.

We have once again stayed true to our tradition of being innovators and developed one of the very best clear coats on the automotive market today. Thanks to the ingenious paintwork system from Mercedes-Benz, we have succeeded in further enhancing the high-class visual appeal of our vehicles and, as a result, their actual value retention. The paint developed by Mercedes-Benz is more resilient than conventional clear coat finishes thanks to its particularly dense molecular structure. You can be rest assured that your new Mercedes will retain its lustrous appearance throughout its motoring life.

What comes between you and the road.

20" 5-twin-spoke alloy wheels

The impressive 20" 5-twin-spoke alloy wheels that come standard on the GLK are anything but standard. The sleek twin-spoke design adds the extra flair it takes to get you noticed on the road. These impressive wheels put a bona fide athletic emphasis on both power and performance.

Savour the possibilities.

Satisfy all of your discerning needs with genuine Mercedes-Benz Equipment Packages, designed and manufactured to the highest standards for design, engineering, appearance, and quality. Adding both form and function to your GLK, the Equipment Packages are ideal ways to add personal touches to an already stunning automobile.

The Premium Package

The integrated garage door opener is able to learn the radio frequencies of practically any hand-held transmitter. The revolutionary PARKTRONIC system makes maneuvering in and out of tight spots even easier with audible warnings that notify you of how close you are to a detected obstacle. An integrated Electronic Compass helps you find that picture perfect destination, and the 115 V power socket allows you to charge mobile devices on the go. An electronically powered tailgate makes getting to your cargo a breeze and can be stopped in any position once two-thirds open. Finally, the power adjustable memory package with 3-position memory incorporates your seat setting, head restraint, exterior mirrors, and power steering column to tailor your driving experience to the finest detail.

The COMAND Navigation Package

The COMAND APS control and display system combines navigation, audio and telephone into one intuitive design. Its interface is more user-friendly than ever before, with no need to change navigation DVDs thanks to an

internal hard-drive storage system. Follow driving directions on the unique 7" display screen with high-resolution graphic elements and colours. Easier still, all key functions can now be called up by means of the LINGUATRONIC voice control recognition function. You can dial up a phone number simply by saying the person's name. And lastly, your audio capabilities are taken to the next level with a 6-disc DVD changer and PCMCIA interface for reading and transferring up to 4GB of MP3s from memory cards.

The Bi-Xenon Headlamp Package

Bi-Xenon headlamps improve road illumination on bends by up to 90%, while cornering lights allow you to recognize and respond to road contours more easily, giving you better visibility on curves and providing you with enhanced safety at crossroad and junctions. And to top it all off, washers with extendable high-pressure nozzles keep the headlamps clean, even when the car is in motion.

The actual fuel consumption of this vehicle may vary. Refer to the *Fuel Consumption Guide*. ³Dimensions shown are for models with standard equipment.

The final touch for a great first impression.

You're an individual. You take pride in setting yourself apart. You also enjoy the finer things in life. Satisfy all of your discerning needs with Mercedes-Benz GenuineParts and accessories, designed and manufactured to the highest standards for design, engineering, appearance, quality, form and function. Add nuance and unique refinement to your GLK. It's an ideal way to add your own distinctive style to an already stunning automobile.

Rear Roof Spoiler

Chrome Door Handle Cups

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz. And to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear," such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

There's virtually so much more.

Visit mercedes-benz.ca and open an online window to Mercedes-Benz Canada. Revel in the incredible photography of our vehicles and get a visceral impression of what it would be like to see yourself behind the wheel. Get information about any of our vehicles, including financing and leasing options, upcoming models, and how to configure your own ideal Mercedes online. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and much more on the fascinating story behind one of the world's most recognizable brands.

To be continued. With a test drive.

Nowhere is a Mercedes-Benz so convincing as on the road. It is only there that you can fully experience the effortlessly superior handling that makes this car so special. You can feel how the powerful engine drives the vehicle onwards and how the precise steering movements have a direct effect on your own mood. The special atmosphere that arises during a drive in a Mercedes-Benz cannot be put down on paper. That's why we would like to invite you to reserve an appointment for a test drive at your local Mercedes-Benz dealer. Or visit www.mercedes-benz.ca. We look forward to seeing you.
