

The all-new 2012 CLS-Class

Mercedes-Benz
The best or nothing.

Boasting new design and technology refinements, the all-new 2012 CLS-Class takes the original and iconic four-door coupe and redefines it, without losing sight of what a Mercedes-Benz must be: passionate, innovative and powerful. Prepare to discover an unmatched level of sport-coupe excitement.

CLS 550 4MATIC™ with optional LED headlamps

Sensuality and sense have never been closer.

It's an irresistible character – even at a standstill, the all-new 2012 CLS-Class has the power to blow you away. This four-door coupe combines timeless elegance with expressive design like no other car before it. From its awe-inspiring sporty front grille emblazoned with the iconic three-pointed star, to its dynamic side contours that lead your eyes all the way back to the powerful, muscular rear section – extraordinary is the norm. And the dynamic AMG Styling Package further enhances its chiseled form with 18" AMG 5-spoke wheels and an aggressive single-louvre grille. It's a perfect blend of power and beauty. But don't hold back, because the all-new CLS-Class certainly doesn't.

CLS 550 4MATIC™ LED tail light

CLS 550

CLS 550 4MATIC™

CLS 550 4MATIC™ PASSION leather upholstery in black with piano black lacquer trim

True beauty comes from within.

There's no shame in going weak at the knees – true beauty will always have that effect. Much like the interior design of the all-new CLS; from the moment you open the door, the ambient interior lighting – available in your choice of neutral, solar, or polar hues – begins to seduce you visually. The impressive union of fine leather and wood trim surfaces – the most in any Mercedes-Benz model – satisfies even the most exacting design and comfort requirements. The only shame would be to not get in.

Another hallmark of the four-door coupe is its ample legroom – now backseat passengers will enjoy the same comfort as you do. But any seat in the CLS is always first class, especially when it's adorned with supple PASSION leather.¹ Visually stunning and extremely comfortable – it makes for an interior cabin you'll consider your home away from home.

CLS 550 4MATIC™ Ambient Lighting

¹Available as an option the CLS 550 4MATIC™ and standard on the CLS 63 AMG.

Some cars get stares. This one stares back.

The front of any vehicle conveys an impression of its character. And while the new active LED headlamps¹ look fantastic, they can back it up with genuine performance. The LED headlamps follow the driver's steering angle for better visibility around turns, providing increased clarity in all driving situations.

Power meets precision.

The all-new 2012 CLS-Class delivers nothing less than an exceptional driving experience. Formidable turbocharged engines deliver impressive levels of torque, while advanced transmission, suspension and steering systems ensure their power is transferred smoothly and effortlessly to the road. Selective damping constantly monitors the road, acting within milliseconds to adapt the suspension accordingly. This is complemented by the newly developed electro-mechanical Direct Steering system, which reduces the steering effort required when parking. At high speeds on the other hand, the emphasis is on straight-line stability, leading to more assured steering response across the speed range. In addition, this feature also enables the CLS-Class to incorporate innovative assistance systems such as Active Parking Assist, which automatically guides your vehicle when parking.

¹Standard on the CLS 63 AMG only. Only available as part of an option package on the CLS 550 4MATIC™.

CLS 550 4MATIC™ with optional LED headlamps and optional 19" AMG 5-spoke wheels

Let the performance begin.

A world of acoustic options is at your fingertips in the CLS-Class. The available 610-watt harman/kardon® LOGIC7® surround sound system¹ gives you unparalleled sound quality from every seat with 14 precisely placed speakers. SIRIUS Satellite Radio² is standard, featuring 120 channels, including 100% commercial-free music from every genre, plus sports, news, talk and comedy – all with crystal-clear, coast-to-coast coverage.

The CLS-Class features the latest-generation COMAND APS multimedia control and display system which combines audio, Bluetooth and a hard-drive based GPS navigation system – all of which can be controlled through the LINGUATRONIC voice operated control system. Plus, an intelligently designed interface supports more media devices than ever before, yet remains as user-friendly as always. Being entertained on your travels will never be a worry in the CLS-Class – though deciding what to do first might be.

Increased adrenaline. Reduced emissions.

Performance meets fuel economy. Luxury meets responsibility. At Mercedes-Benz, we don't believe in compromise. Our BlueEFFICIENCY philosophy ensures that environmental responsibility plays a major role in all we do. We do this at all levels of vehicle development and production – and therefore take a comprehensive approach to all the potential factors relating to drive systems, lightweight construction, energy management and fuels. This all-round approach also includes aspects such as total emissions, choice of materials, development, production, use and servicing, right up to eventual vehicle recycling and disposal. The world's awareness is increasing as emissions, fuel consumption and fuel prices become topics that affect us all. For Mercedes-Benz it is both a corporate goal and an obligation to shape the future of mobility in a responsible and sustainable manner.

4.6L bi-turbo V8 direct injection engine

Owens the road as easily as it does attention.

With our award-winning 4MATIC™ permanent all-wheel drive system delivering optimal traction regardless of road conditions, the CLS-Class knows no boundaries. Available for the first time on the CLS 550, 4MATIC™ incorporates the 4-wheel Electronic Traction System (4ETS), monitoring each wheel for slippage and individually braking wheels to maintain the balance of power. By continuously ensuring that power is transferred to the wheels with grip, 4MATIC™ will keep you going, even if only one wheel has traction. The CLS 550 4MATIC™ delivers the outstanding control of all-wheel drive without sacrificing true sport-coupe driving enjoyment. Sharp steering and the balanced feel of a rear-wheel drive vehicle are retained, making the CLS 550 4MATIC™ a joy to drive in any season.

4MATIC
CONTROL

CLS 550 4MATIC™ with optional LED headlamps

A powerhouse of efficiency.

Conceived with a 4.6L bi-turbo V8 direct injection engine delivering 402 hp and exceptional fuel economy, rest assured that not only does the CLS 550 4MATIC™ stand as a benchmark of exceptional design but also, one of incredible power and efficiency. Whether you prefer an economical or a sporty driving style, the 7G-TRONIC PLUS automatic transmission has been optimized for the all-new CLS 550 4MATIC™. Seven gear ratios provide a larger ratio spread and can react on the basis of smaller differences in engine speed. This produces faster shift operations, which in turn, make for smoother running and improved ride comfort.

The suspense is thrilling you.

What kind of ride would you like your CLS-Class to have – one that maximizes its athletic potential or one which puts the emphasis on comfort? With the AIRMATIC DC air suspension system¹, you can make your choice at the touch of a button. Instead of conventional coil springs, an electronic system adjusts the setting of the air springs by using compressed air to create a firmer or softer set-up to suit the given situation. If the sensors register sporty driving, the suspension automatically becomes firmer. The AIRMATIC DC air suspension system also includes the Adaptive Damping System (ADS)

allowing the driver to select between comfort, sport and automatic dampening.

What comes between you and the road.

The CLS-Class wheels were designed with the same philosophy as the rest of this inspired vehicle. Style, substance and safety are the cornerstones of Mercedes-Benz, and none of these attributes were spared while developing these impressive wheels.

CLS 63 AMG RIDE CONTROL suspension

As always, safety comes standard.

The integral safety concept from Mercedes-Benz is the guiding force behind a series of linked technologies that come into play in the critical moments before, during and after an accident.

First, the Electronic Stability Program (ESP®) continuously monitors your vehicle's motion to help keep it going in your intended direction. If ESP® detects wheel spin, severe understeer (plowing) or oversteer (fishtailing), the system can brake individual wheels and reduce engine power to help

bring the vehicle back under control! And the CLS-Class is equipped with the ADAPTIVE BRAKE system to dry the brake pads off periodically when the windshield wipers are on.

Brake Assist (BAS) automatically boosts braking power, applying the brakes faster and harder than the average human reaction in case of an impending collision. If a rear-end collision should occur, the crash-responsive NECK-PRO head restraints for the driver and front passenger deploy, minimizing neck injuries. In the event

of a frontal collision, intelligent sensors determine whether the impact is a minor one or more severe and adjusts the inflation of the two-stage front airbags accordingly.² In a front or rear-end collision exceeding a specific threshold, front, side and window curtain airbags can be activated in accordance with the type and severity of the impact. Additionally, belt tensioners on all seats instantly pull the belts tight against the occupants to reduce the kinetic force exerted on their bodies. These innovations ensure that every trip you take in the CLS-Class is always a safe one.

NECK-PRO head restraints

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. ²WARNING: The forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seatbelts and child seats.

The energy-absorbing crumple zones in the front and rear sections, an extremely robust safety passenger cell, and the doors with special reinforcing elements form an effective defensive barrier in an emergency

AMG

CLS 63 AMG

Muscle meets masterpiece.

From the exclusive AMG front end design to the AMG spoiler on the trunk lid, the CLS 63 AMG impresses with its hallmark aggressive AMG aura. The wide front stance, single-louvre radiator grille and the powerful AMG front apron combined with active LED headlamps and LED daytime running lights on the outer air dams create a display of thrilling dynamism. This momentum is underlined by 19" AMG triple 5-spoke wheels painted in titanium grey with a high-sheen finish, an exclusive AMG diffuser-style rear apron with integrated rear fog lamps and, of course, the AMG sports exhaust system with dual chromed twin tailpipes.

Takes your breath away, along with all inhibitions.

Its redesigned, sports car-inspired body already renders most speechless – until the moment they hit the throttle. Going from 0 to 100 km/h in just 4.4 seconds, the CLS 63 AMG may be easily out of sight, but hardly out of mind. The most powerful, turbo-charged V8 engine in its class propels this breathtaking performance.

The AMG SPEEDSHIFT MCT transmission employs the multiple downshift principle, allowing for 35% faster gear changes with load-free downshifting thanks to a feature that blips the throttle automatically. The aluminium shift paddles on the ergonomic AMG steering wheel delivers the engine's formidable power from your fingertips to the road almost instantaneously.

Magnificence: the inside story.

Exhilaration isn't restricted solely to the driver. Each passenger will be treated to the exclusive, ultra comfortable AMG seats. Additionally, the 3-zone THERMOTRONIC climate control regulates each zone temperature separately, with the rear passengers having their own digital control panel for setting temperature and adjusting airflow. This makes every seat in CLS 63 AMG the best seat in the house, and every drive an unforgettable one.

The AMG DRIVE UNIT is at the heart of the cockpit

The interior of the CLS 63 AMG features an interplay of fine materials and sporty design. Shown in black leather with AMG Carbon fibre trim.

Dressed for the occasion.

The finishing touches can mean the difference between a work of art and a true masterpiece. Whichever colour you opt for, you've made the right choice. Because with a selection of paint finishes benefiting from an extra scratch-resistant clear coat, your CLS-Class is less susceptible not only to scratches, but also to sunlight, temperature variations, dust and soot.

The final touches.

Added nuances and unique refinements are just the things to make your CLS-Class a distinctively richer driving experience. Mercedes-Benz accessories are a cut above, having been designed and built to the highest standards for concept, engineering, quality, form and function.

Shallow Trunk Tray

- The trunk tray shape with its slightly raised edge is precision-tailored to the load area. Made from impact-resistant, non-split polyethylene, this odourless tray prevents loads from sliding around and protects the carpet from spills and dirt.

Rear Seat Entertainment System (RSES)

- Two 7" high resolution LCD screens with individual DVD players integrated into the screens.

- System is capable of playing one movie on both screens or two different movies at once.
- Two wireless headsets.
- Supports a variety of media formats including JPEG, DivX, MPEG4, DVD and music in CD, DVD and MP3 formats.
- USB/SD Card slot access for digital movies or photo playback.
- One remote control controls both screens.
- Auxiliary jacks enable the use of gaming devices.

Roof Rack and Roof Box

- Versatile, aerodynamic roof rack made from aluminium. Basis for all Mercedes-Benz transport and leisure accessories such as roof boxes, bicycle racks and ski racks.

Illuminated Door Sills

- High-quality, ground stainless steel with glass inlay and white illuminated "Mercedes-Benz" lettering. Automatically switch off after 5 minutes. Head-turning design sets vehicle apart from other models.

A passion for things done right.

A passion for craftsmanship and attention to detail – it's what you'd expect from Mercedes-Benz, setting us apart from all other manufacturers. It drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz, and to provide you with an ownership experience that includes the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear period

The following parts listed are covered for wear and tear during the first 24 months or 40,000 km, whichever comes first. Brake pads, brake discs, brake pad wear sensors and light bulbs.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever comes first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty or optional

Extended Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

Mercedes-Benz is virtually yours.

Visit mercedes-benz.ca and open an online window to Mercedes-Benz Canada. Revel in the incredible photography of our vehicles and get a visceral impression of what it would be like to see yourself behind the wheel. Access information about any of our vehicles, including financing and leasing options, upcoming models, and configure your dream Mercedes online. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and much more on the fascinating story behind one of the world's most recognizable brands.

To be continued. With a test drive.

Nowhere is your CLS so convincing as on the road. It's only there that you can fully experience the superior handling and power that makes this car so special. Feel the engine move you forward, and watch your heart rate rise with the speedometer. That unique feeling in your stomach cannot be put down on paper. That's why we would like to invite you in for a test drive at your local Mercedes-Benz dealer. Reserve your appointment today, or visit mercedes-benz.ca. We look forward to seeing you.
