

The 2012 S-Class

Mercedes-Benz
The best or nothing.

The pioneering spirit of Gottlieb Daimler and Wilhelm Maybach lives on at Mercedes-Benz. Always at the forefront of engineering technology and superior craftsmanship, our passion has always been to create automobiles that move in more ways than one. With the 2012 S-Class, our principles live on.

S 550 4MATIC™.

One look is all it takes.

The captivating design of the S-Class is unlike any other automobile on the road. Up front, the distinctive radiator grille commands attention while Active bi-xenon headlamps with LED design illuminate the road ahead. The exterior mirrors with larger lenses and LED indicators also complement the body and capture attention from onlookers.

A wide bumper with integrated tailpipes at the rear gives the S-Class an unmistakable look of power. LED rear lighting throughout emotes sheer confidence. Even the optional 19" AMG 5 triple-spoke alloy wheels make a statement. The S-Class not only turns the heads of others, but yours as well.

S 550 4MATIC™ LED taillights.

S 550 4MATIC™

S 400 HYBRID interior.

Take luxury on the road.

Almost every aspect of the S-Class can be tailored to your desire. Luxurious interior finishes such as fine-quality leather and rich wood trims are plentiful, with the available Premium Leather Package that even offers supple leather on the dashboard and door trim. Ambient lighting can even be tailored with three distinct colour options.

Further features include, Heated 16-way power-adjustable seats and the THERMOTRONIC automatic climate control system allowing for individual temperature and airflow preferences. No comfort is compromised in the S-Class, including in the rear. While luxury rear headrests¹ are standard across select models, features such as electrically adjustable rear seatbacks, climate comfort ventilation, and the rear-seat entertainment system² are also available with the optional Premium Rear Seating Package.

The S-Class interior stands as the pinnacle for exceptional luxury and passenger comfort.

¹Standard on the S 600, S 63 AMG and S 65 AMG. Available as part of an option package for the S 350 BlueTEC, S 400 HYBRID and S 550 4MATIC™. ²Only available as part of an option package.

Pushing engineering and innovation to a higher level.

With the all-new S 350 BlueTEC 4MATIC™, the S-Class is the one and only diesel in its class. Its economical engine delivers 240 hp and 455 lb-ft of torque, giving it the smooth and exceptional performance one would expect from a Mercedes-Benz.

The all-new 3.0 L turbo diesel V6 engine.

S 350 BlueTEC 4MATIC™.

Take command with COMAND.

The Mercedes-Benz COMAND APS with navigation control and display system is one of the most advanced in the world. For safe, hands-free communication, the COMAND system includes a remote control, SD card slot, and Bluetooth. You can also choose to control components by voice with the LINGUATRONIC voice-control system.

The harman/kardon® LOGIC7® 600-watt surround sound system comes standard on the S-Class. Aided by Dolby Digital 5.1, it offers a full three-dimensional sound experience. For a whole new dimension in listening pleasure, there is the Bang & Olufsen performance surround sound system. Standard on the S 600 and S 65 AMG and optional on all other S-Class models, it delivers 1,200 watts of stunning sound quality.

Also included with either exceptional sound system is an MP3-compatible 6-disc DVD player, SIRIUS Satellite Radio¹ featuring 120 channels and an auxiliary audio/video input in the glove box.

harman/kardon® LOGIC7® surround sound system.

The S 550 4MATIC™ interior featuring COMAND APS.

Leader, in every sense of the word.

As a world-class sedan – one by which all others are measured against – the S-Class has brought several landmark innovations to the market.

The S 400 HYBRID is powered by a muscular 6-cylinder gasoline engine and by a compact yet high-powered electric torque motor. Its optimized aerodynamics, recuperation of braking energy, ECO start-stop function, and low friction tires make it the most efficient and responsible vehicle in the luxury class.

The only diesel in its segment, the S 350 BlueTEC 4MATIC™ also delivers without compromise. It can catapult to 100 km/h in only 7.1 seconds, all while being extremely resourceful with fuel. The standard 7G-TRONIC PLUS automatic transmission also helps to deliver outstanding performance while improving overall fuel economy.

The 2012 S-Class range represents the ultimate goal of our BlueEFFICIENCY philosophy.

The S 550 4MATIC™ houses an all-new 4.6 L bi-turbo V8 engine resulting in reduced emissions and better fuel consumption.

Experience four seasons of control with 4MATIC™.

The S 350 BlueTEC 4MATIC™ and S 550 4MATIC™ come standard with our fourth generation, fully automatic, permanent all-wheel drive system. It works seamlessly with our Electronic Stability Program (ESP®), enhancing your all-wheel advantage through curves in rain or snow.

Our 4MATIC™ permanent all-wheel drive technology also incorporates our 4-Wheel Electronic Traction System (4ETS) which monitors each wheel for the first sign of slippage, and can individually brake slipping wheels to maintain the balance of power or reduce excess torque.

By continuously ensuring that power goes to the wheels with more grip, 4MATIC™ can assist even if only one wheel has traction¹. This ensures optimum control in all seasons and during all road conditions.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires.

S 550 4MATIC™.

Dynamic performance and optimum agility.

V6 ENGINE

The S 400 HYBRID is the most fuel-efficient large luxury sedan in the world. It takes HYBRID technology to the next level with the first series production of lithium-ion batteries, which are lighter and more efficient than existing hybrid batteries. With its combined gas and electric motor output of 295 hp and 284 lb-ft of torque – the S 400 HYBRID accelerates from 0-100 km/h in 7.2 seconds.

V8 and V12 ENGINES

The S 550 4MATIC™ is equipped with an all-new 4.6 L bi-turbo V8 engine that generates a maximum power of 429 hp and 516 lb-ft of torque. The use of lightweight materials such as magnesium results in an optimized power output and a broader torque curve, reducing fuel consumption even further. The powerful bi-turbo V12 engine of the S 600 is quite literally twice the engine you'll find in many other cars, with 510 hp and 612 lb-ft of torque at only 1,800 rpm.

7G-TRONIC PLUS AUTOMATIC TRANSMISSION

An all-new 7G-TRONIC PLUS automatic transmission creates an ideal relationship with the S 350 BlueTEC 4MATIC™ and S 550 4MATIC™, delivering power with exceptional fluidity. Its close-ratio, 7-speed design delivers lower noise levels, faster and smoother shifting, improved responsiveness and greater fuel economy.

For supreme ride comfort, the S-Class is also equipped with either the AIRMATIC air suspension¹ or the Active Body Control (ABC) suspension system². AIRMATIC provides better comfort and agility than ever while ABC-equipped vehicles use sophisticated sensing systems to continuously adapt the suspension to driver input and variable road conditions.

¹Standard on the S 350 BlueTEC 4MATIC™, S 400 HYBRID and S 550 4MATIC™. Not available on the S 600, S 63 AMG, and S 65 AMG. ²Standard on the S 600, S 63 AMG and S 65 AMG. The 7G-TRONIC PLUS: one of over 18 million automatic transmissions produced in a period spanning more than 50 years.

The integral safety concept from Mercedes-Benz.

The S-Class and its integral safety concept reaffirm the Mercedes-Benz position as a safety originator. With it, our vision of accident-free driving has moved one step closer to reality.

Working together, the technologies within the S-Class help to protect you before, during, and after an accident. From vehicle motion, stability, braking, to even lighting, many sensors and programs work together to monitor your vehicle and adjust as needed to provide you the ultimate protection.

For optimum protection, the body of the S-Class employs a series of reinforced crumple zones to protect you in the event of an accident. The S-Class further benefits from the protection of an 8 airbag¹ system, including two-stage front airbags and front and rear side-impact airbags.

In the urgent moments just after an accident, our built-in technology even aids rescue efforts. Following a collision, our intelligent system automatically carries out a range of safety measures: the engine shuts off and hazard signals and emergency interior lighting switch on, the

side windows are partially lowered and the doors are unlocked. And anytime an air bag or Emergency Tensioning Device is activated, the vehicle engages the standard TeleAid System², putting your vehicle in touch with the TeleAid Emergency Response Center, where trained specialists can assess the situation and alert emergency services.

Mercedes-Benz understands that when it comes to safety, time is of the essence.

NECK-PRO head restraints.

¹WARNING: The forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on airbags, seatbelts and child seats. ²First year's monitoring provided at no cost. Subscription is required for service to be active thereafter. TeleAid operates only where cellular and Global Positioning System coverage is available.

8 standard airbags provide optimal protection in the event of a collision.

Power becomes you.

For the ultimate in performance, the S-Class is also offered in two unique and powerful AMG models.

Under the hood, the S 65 AMG possesses an AMG 6.0 L V12 bi-turbo engine that delivers a staggering 621 hp and 738 lb-ft of torque. This kind of torque needs to be harnessed with a 5-speed automatic transmission with AMG SPEEDSHIFT enhancements. 0-100 km/h is achieved in only 4.4s, making the S 65 AMG one of the world's quickest four-door sedans.

The S 63 AMG boasts the AMG 5.5 L bi-turbo V8 engine with 536 hp and 590 lb-ft of torque. Combined with the AMG SPEEDSHIFT MCT 7-speed sports transmission, it accelerates from 0-100 km/h in 4.5s. Add in the optional AMG Performance Package upgrade and enjoy increased power of 563 hp and 664 lb-ft of torque.

Both the S 63 AMG and the S 65 AMG are equipped with Active Body Control (ABC), which uses special

AMG spring struts with firmer damping. ABC reduces body roll in cornering, squat under acceleration, and front-nose dive during braking.

Each of these AMG jewels also incorporate unique exterior and interior styling features, including special leather and detailing, two chromed dual tailpipes, a front apron with enlarged air intakes, side skirts, a rear apron and unique AMG alloy wheels.

The muscular rear of the S 63 AMG defines its athletic character.

S 65 AMG interior.

AMG

An expression of character.

The finishing touches can mean the difference between a work of art and a true masterpiece. Whichever colour you opt for, you've made the right choice. With a selection of both solid and metallic paint finishes benefiting from an extra scratch-resistant clear coat, your S-Class colour is less susceptible not only to scratches, but also to sunlight, temperature variations, dust and soot.

¹Stated rates of acceleration are based upon manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load. ²Electronically limited. ³These estimates are based on Transport Canada testing methods. The actual fuel consumption of these vehicles may vary. Refer to the *Fuel Consumption Guide*. ⁴With standard equipment.

A passion for things done right.

A passion for craftsmanship and attention to detail – it's what you'd expect from Mercedes-Benz. It drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz, and to provide you with an ownership experience that includes the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear period

The following parts listed are covered for wear and tear during the first 24 months or 40,000 km, whichever comes first. Brake pads, brake discs, brake pad wear sensors and light bulbs.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever comes first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz experts who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty or optional Extended Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

Mercedes-Benz is virtually yours.

Visit mercedes-benz.ca and open an online window to Mercedes-Benz Canada. Revel in the incredible photography of our vehicles and get a visceral impression of what it would be like to see yourself behind the wheel. Access information about any of our vehicles, including financing and leasing options, upcoming models, and configure your dream Mercedes online. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and much more on the fascinating story behind one of the world's most recognizable brands.

To be continued. With a test drive.

Nowhere is your S-Class so convincing as on the road. It's only there that you can fully experience the superior handling and power that makes this car so special. Feel the engine move you forward, and watch your heart rate rise with the speedometer. That unique feeling in your stomach cannot be put down on paper. That's why we would like to invite you in for a test drive at your local Mercedes-Benz dealer. Reserve your appointment today, or visit mercedes-benz.ca. We look forward to seeing you.
