---

Mercedes-Benz

---

*TO UPHOLD TRADITION IS NEVER TO HOLD IT BACK.*

---

When you think about the milestones Mercedes-Benz has established for generations, a clear pattern emerges. From unwavering principles to an unfading passion for uniting power, luxury and beauty, the heritage they collectively establish is one that always thrusts history forward. It's how imagination becomes innovation, optimism begets opportunity, and engineering sparks emotion. Perhaps no automobile embodies these values as impressively, or impeccably, as the 2013 CL-Class. It's visible in its signature pillarless profile and sumptuous four-seat cabin. And it's tangible in the unparalleled synthesis of performance, comfort and safety. The flagship coupes of Mercedes-Benz uphold a long-standing tradition of never standing still. Driving a CL-Class is a celebration of this legacy—and it's one that only grows newer with time.

# AIR OF AUTHORITY.

THE SPARK OF INSPIRATION IGNITES THE FIRE WITHIN.

Groundbreaking, breathtaking Mercedes-Benz coupes have been quickening the pulse of performance for the better part of a century. The 500 K featured a supercharger and 4-wheel independent suspension in the 1930s. The 1955 300 Sc was fuel-injected. The 2000 CL 500 debuted a fully active suspension. For 2013, each of the four CL-Class coupes rekindles the inspired passion of its forebears with its own combination of biturbo power and a highly advanced chassis. Two Direct Injection V-8s can fire each of their spark plugs four times in sequence within a single millisecond, creating more torque from less fuel and with fewer emissions. And a pair of V-12s generate superlative output with supernatural ease. In the CL 550, semi-active AIRMATIC® suspension teams with 4MATIC® all-wheel drive to wield its torque with tenacity. Its three thoroughbred stablemates—including a pair of AMG coupes—are endowed with Active Body Control (ABC®), arguably the most advanced suspension on the road today. In any form, on any road, a CL-Class turns pure passion into poised performance.

**The CL 550 4MATIC.** An advanced 429-hp biturbo V-8 rushes the CL 550 to 60 mph in 4.8 seconds.<sup>1</sup> Its paddle-shifted 7-speed automatic has been reengineered for crisper, smoother and more efficient shifting. Semi-active AIRMATIC suspension expertly balances comfort and handling, and includes both 4-wheel level control and a driver-selectable Sport mode. Standard 4MATIC all-wheel drive<sup>2</sup> makes the best use of all four standard 18" 5-spoke wheels,<sup>3</sup> based on each individual wheel's grip. And with light weight and a 45:55 front/rear torque split, 4MATIC enhances handling and efficiency in any season.

**The CL 600.** A 510-hp biturbo V-12 creates superhero power with sublime smoothness, along with 60 mph in 4.5 seconds.<sup>1</sup> A robust 5-speed automatic with shift paddles deftly manages the abundant torque en route to the rear wheels. Active Body Control (ABC) masters cornering and comfort with its own counterforces, to conduct every move of the standard 19" multispoke wheels<sup>3</sup> with athletic grace.

**The CL 63 AMG.** Race-bred power and rich refinement are a natural pair in this 536-hp super coupe. Its handcrafted biturbo V-8, 20" wheels<sup>3</sup> and AMG-calibrated ABC are evidence of unyielding attention to every detail. While it can charge to 60 mph in 4.4 seconds,<sup>1</sup> it'll cruise all day in relaxed comfort.

**The CL 65 AMG.** Extreme performance meets elegant luxury in an exclusive coupe that nearly defies description. A handcrafted 621-hp biturbo V-12 rockets it to 60 in just 4.2 seconds,<sup>1</sup> while lightweight forged-alloy 20" wheels<sup>3</sup> and AMG-calibrated ABC conspire to deliver uncanny poise under pressure.

# UNCOMMON VISION. EXTRAORDINARY VIEW.

---

The taut, sweeping profile of the CL-Class is a rare sight to behold in the everyday world. But to gaze toward the horizon from any of its four exquisitely crafted seats is a revelation. Its panoramic, pillarless design may arise purely from romantic motivation, but it's an invisible tribute to its engineering intensity. To provide four power side windows with no interrupting framework requires an elaborate, highly rigid body structure—a legendary Mercedes-Benz trait which pays further dividends in handling precision, safety and quiet comfort. Producing the CL-Class in limited numbers frees its cabin to offer a haven of refined luxury to its passengers. Every surface reflects the expert eyes and hands of those who take their time crafting it, from the finely stitched dash and flowing full-length console to the exquisite details that distinguish each of its four models. The world's only coupe to feature pillarless design for more than 50 consecutive years, the CL-Class is evidence that genuine passion, even when it's concealed, cannot be contained.

**The CL-Class cabins.** Each of the four coupes delivers its own expression of luxury. All feature four individual seats divided by a wood-trimmed console that sweeps from dashboard to rear armrest. A classic analog timepiece inspired by the 1950s 300 Sc crowns the advanced controls and displays. Premium leather seating in the two V-8 coupes is smooth and supple. The Exclusive leather of the V-12 coupes is even more extravagantly applied. Performance-focused details further distinguish the AMG models.

**CL 550 Sport Packages.** Aggressively sculpted lower body styling encircles race-proven AMG wheels in your choice of a 19" triple 5-spoke design fitted with all-season tires, or a 20" 5-spoke style equipped with high-performance tires.<sup>3</sup>

**CL 550 Grand Edition.** A new option dresses the body and cabin in exquisite *designo* paintwork and leather—each offered in three dramatic shades. Sport lower bodywork sets off either 19" triple 5-spoke or 20" 10-spoke alloy wheels.<sup>3</sup>

CL 550 shown with *designo* Magno Cashmere White matte-finish paint, *designo* Armagnac leather, Black Ash wood trim, and optional Grand Edition Package with 19" AMG triple 5-spoke wheels. Please see endnotes at back of brochure.

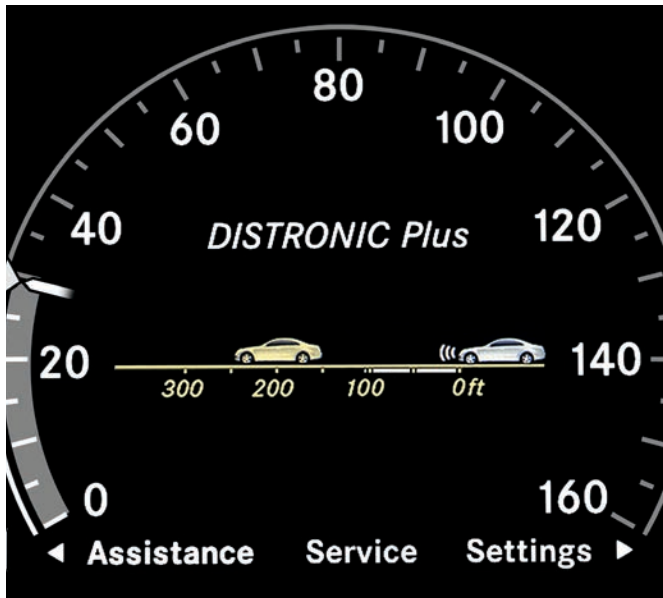

---

*INSIGHTFUL DETECTION. INTEGRATED PROTECTION. IMMEDIATE ACTION.*

---

Look at the list of the safety features in most any car today, and you'll be looking into the history of Mercedes-Benz. Our engineers have been driving the future of automotive safety for more than 60 years. In the 1950s, they invented the first crumple zone—just one of over 80,000 patents recorded in the history of Mercedes-Benz. In the 1970s, they earned a patent for the air bag. In the decades to follow, they also pioneered a portfolio of safety breakthroughs that went on to become the standards of the entire industry—like the Antilock Braking System (ABS), Electronic Stability Program (ESP®) and emergency-sensing Brake Assist (BAS®). In the early 2000s, the CL-Class introduced the first Bi-Xenon headlamps to the industry. And even over decades of increasingly stringent side-impact and roof-strength standards, only Mercedes-Benz has never stopped producing pillarless coupes. When you examine the 2013 CL-Class, you'll discover much more than these well-known milestones of safer driving. You'll see first-of-their-kind advancements that not only predict tomorrow's cars, they also help to protect your own tomorrow—starting now. Its PRE-SAFE® system can help detect and prepare for a collision before it happens. ATTENTION ASSIST® can sense a drowsy driver. As you drive along a rainy highway, the brakes intelligently act to disperse water buildup. And should any of the nine air bags be activated, the standard mbrace® system can automatically place a call for help.<sup>4</sup> Far more than a list of features, every CL-Class is an orchestrated safety system—engineered to make the most of every millisecond it takes to avoid, or survive, a collision. You might not be able to see all the ways that your CL-Class looks out for you. But if you ever need them, you'll see why they do.

## REVEAL

**Brilliant lighting.** Bi-Xenon headlamps create light that's more like natural daylight than halogen lamps. They also feature Active Curve Illumination and Adaptive Highbeam Assist. These two advanced systems continuously vary the headlamps' angle and beam pattern, to maximize the lighting of corners and straightaways without causing glare for other drivers. They also include corner-illuminating front lamps to help brighten your path into driveways, as well as headlamp washers. LED Daytime Running Lamps, taillamps and brake lamps help assert your presence to other drivers.

**ATTENTION ASSIST.** By continually monitoring a variety of driving behaviors, this Mercedes-Benz innovation can audibly and visually alert the driver if it detects signs of drowsiness on long trips. More than 70 variables are measured to establish a pattern in the first minutes of each drive and determine the warning thresholds accordingly.<sup>5</sup>

**Night View Assist® PLUS with Pedestrian Detection.** As you drive in darkness, this remarkable option<sup>6</sup> can project infrared beams that are invisible to the human eye, and read them with a special camera. The system displays a clearer, supplemental real-time view of the road ahead on an 8" in-dash screen that's directly in front of the driver. It can also help identify, point out and illuminate pedestrians along a dark roadway.<sup>7</sup>

**Rear view camera.** When backing up, this standard feature shows a live view of the area behind your car on the large central in-dash screen.<sup>8</sup>

## PREPARE

**Body structure.** Even without conventional full B-pillars, the CL-Class body achieves exceptional rigidity. Extensive use of ultra-high and high-strength steel in critical areas helps it manage both weight and impact forces.

**PRE-SAFE.** A Mercedes-Benz first, PRE-SAFE can detect instability during certain vehicle maneuvers that suggest a collision or rollover is imminent. It can then adjust the front passenger seat, close the front windows and close the sunroof—all in an effort to better prepare the occupants in the moments leading up to a possible collision.<sup>9</sup>

**Adaptive braking.** Along with the Electronic Stability Program (ESP) and emergency-sensing Brake Assist that the CL-Class pioneered, its 4-wheel ventilated disc brakes include perforated front rotors. Powerful 4-piston front calipers are standard on the CL 550 4MATIC and CL 600, while the AMG models feature an innovative setup with two calipers for each front brake. In addition, an integrated system of braking advances helps to make driving more reassuring and relaxing in a variety of situations. If the driver lifts off the accelerator quickly, Predictive Brake Priming sets the pads closer to the discs—for quicker response when the driver steps on the brake pedal. In the rain, Automatic Brake Drying periodically applies the brakes just enough to sweep away water buildup on the discs. During uphill starts, Hill-Start Assist helps prevent unwanted rollback. And a HOLD feature can help make driving in stop-and-go traffic less stressful.<sup>10</sup>

## REACT

**DISTRONIC PLUS.** Another CL-Class innovation that takes cruise control to a new level of convenience, this option<sup>6</sup> adapts your set speed in response to the flow of traffic ahead—automatically slowing until your path is clear again. If the vehicle ahead slows to a stop, DISTRONIC PLUS<sup>®</sup> can also brake to a full halt, then resume automatically when traffic starts going.<sup>11</sup>

**PRE-SAFE Brake.** Even if you're not using the cruise control, DISTRONIC PLUS can help detect an impending collision with a vehicle ahead. Its PRE-SAFE Brake system can alert the driver and automatically apply up to 100% braking force, to help reduce the severity of an impact.<sup>11</sup>

**Nine air bags.** Three decades ago, the CL-Class was the first production coupe equipped with standard front air bags. Today, a system of nine air bags offers 11-way protection, with dual-stage front air bags, front and rear side-impact air bags, and side curtain air bags for all four seats.<sup>12</sup> In a rear impact, NECK-PRO<sup>®</sup> active front head restraints help to reduce whiplash.

**Active Blind Spot and Lane Keeping Assists.** A pair of advanced optional systems<sup>6</sup> can alert you to some unseen vehicles in the adjacent lane,<sup>13</sup> and can warn you of unintended drifting across visible lane markings.<sup>5</sup> Both systems also incorporate advanced active technology that can help guide the car back into its own lane, should the driver disregard the alerts.

# UNIMAGINABLE COMFORT. UNFORGETTABLY CRAFTED.

---

If time travel were possible, the CL-Class cabin might be the ideal environment from which to enjoy it. Its technological innovations point to a future in which information and entertainment team with intuition and elegance—from the powerful simplicity of its central controller to the ease with which it responds to your voice. The exceptional craftsmanship evident in its impeccably stitched seats, dash and console, or in the glow of hand-finished wood cascading from its dash, recalls an era of handwork that's all but forgotten by most automakers. And as you savor its lavish comforts, a journey of any length is measured not by the time it takes but by the experience the car grants to all four of its individually seated occupants. It's a habitat that transcends space as well, from its generous room and gracefully flowing design to the seemingly infinite views presented by its frameless, dual-pane and infrared-reflecting side windows. Futuristic innovation feels instantly familiar in the CL-Class, yet it remains endlessly fascinating. And from the driver seat, what starts as a moment of passion is sustained for years as an unfading sense of contentment, and an unforgettable sensation of time well spent.

CL550 shown with *designo* Porcelain leather, Black Ash wood trim, and optional Driver Assistance, Grand Edition and Premium 2 Packages. Please see endnotes at back of brochure.

**Extraordinary.** Heated and Active Ventilated front seats feature 16-way power adjustment—including 4-way lumbar support—and a 3-position memory. Active multicontour front seats (optional on the CL 550 4MATIC) include a massage function and can increase lateral support in cornering maneuvers. The wood/leather multifunction steering wheel puts audio, Bluetooth<sup>®14</sup> and other frequently used controls at your fingertips, while available heating<sup>6</sup> of its Premium leather rim offers rapid warmth on chilly mornings.

**Exquisite.** A 15-speaker harman/kardon LOGIC7<sup>®</sup> system outputs 600 watts of lush Dolby<sup>®</sup> Digital 5.1 surround sound. Your listening choices are virtually limitless: HD Radio<sup>™</sup> stations, SiriusXM Radio,<sup>15</sup> a 6-DVD/CD changer, a memory card reader, iPod<sup>®</sup> integration,<sup>16</sup> a 7.2GB Music Register for storing digital music files, and even an AUX jack and USB port. The 40GB hard-drive navigation system features SiriusXM Traffic with dynamic re-routing, plus Zagat<sup>®</sup> Survey ratings for restaurants, hotels and golf courses.<sup>17</sup>

**Expedient.** The COMAND<sup>®</sup> system's elegant central controller, vivid 8" in-dash screen and Enhanced Voice Control system offer easy access to the entertainment and navigation, along with illustrated adjustment of numerous comfort settings. Crisp, clear instruments include another 8" LCD screen that serves primarily as the analog speedometer. An electronic selector and shift paddles put gear changes at your fingertips. PARKTRONIC with Parking Guidance sizes up parallel-parking spots as you drive by, then helps guide you in.

**Exceptional.** Unexpected amenities abound in the cabin. KEYLESS-GO<sup>®</sup> lets you unlock and start the car without taking the key from your pocket. Power ports include a household-type 115-volt socket. In darkness, fiber-optic LED ambient lighting casts a soothing glow in any of three selectable hues. The dual-zone climate control filters dust, pollen, smog and odors. And the exclusive SPLITVIEW option<sup>18</sup> lets the central in-dash screen show a DVD movie to the front passenger while retaining its COMAND system functions for the driver.

# ONE MAN, ONE ENGINE.

## PERFORMANCE ART, SIGNED BY THE ARTIST.

---

The heart of a CL 63 AMG or CL 65 AMG Coupe is its engine—a work of modern art crafted by the hands of its own master engine builder, and crowned by a plaque bearing his signature. The soul of AMG® traces to an old German mill in 1967, where two former Mercedes-Benz engineers set out to handcraft champion racecars. Success on the track led them to apply their performance pedigree and “One man, one engine” principle to streetgoing Mercedes-Benz models. Decades later, virtually every facet of design and development—from transmissions, suspensions and brakes to distinctive cockpit appointments—remains a seamless alignment of hands-on experience and high-performance engineering. The result is an automobile that can satisfy both the highest demands of driving and the deepest desires of its driver.

**The CL 63 AMG.** A handcrafted 536-hp 5.5-liter biturbo V-8 delivers 60 mph in 4.4 seconds.<sup>1</sup> A 7-speed AMG SPEEDSHIFT® MCT transmission offers 100-millisecond manual shifts and a fuel-saving ECO Start/Stop feature. The performance-calibrated Active Body Control (ABC<sup>®</sup>), massive compound brakes with dual front calipers, and 20" wheels<sup>3</sup> all carry the pedigree of AMG. An optional AMG Performance Package further boosts the engine's output to 563 hp, for a 0–60 time of just 4.3 seconds.

**The CL 65 AMG.** The 4.2-second sprint to 60 mph<sup>1</sup> is just one measure of its 621-hp 6.0-liter biturbo V-12. Its torque summits at 738 lb-ft—the mightiest of all AMG engines. A reinforced 5-speed AMG SPEEDSHIFT transmission includes a paddle-shifted manual mode. Beyond its AMG-calibrated ABC and huge compound brakes, the superlative CL 65 AMG Coupe is set apart by its ultralight forged-alloy 20" AMG wheels.<sup>3</sup>

# YOUR WORLD, YOUR WAY.

*IT'S MORE THAN YOUR CAR.  
IT'S YOUR LIFE, ON THE GO.*

Where will you go next? Whether you're heading out for the evening, planning a vacation, or in need of help in a tough situation, Mercedes-Benz mbrace® can make any trip easier, more productive and more enjoyable.<sup>4</sup> The mbrace system connects you and your car with the devices you already rely upon to get around—your smartphone and computer. It lets you use familiar services like Google Maps™ to send a destination from your computer to your car, so you can start navigating with just a few clicks. Friends can even send their location to your car with just a text message. You can lock or unlock your car's doors, or find it in a crowded parking lot, from your iPhone® or Android™ smartphone. And mbrace can bring the assistance of live experts right to your car—from last-minute theater tickets to help in an emergency. With advanced, reliable technology, plus 24-hour support from helpful experts, mbrace helps to keep you, your life and your Mercedes-Benz connected.

**From your car.** With Mercedes-Benz mbrace, three simple buttons inside your vehicle can connect you to emergency services, our 24-hour Customer Assistance Center, our legendary Roadside Assistance service, or our mbrace PLUS Concierge. And numerous mbrace services are also seamlessly integrated with your vehicle's standard COMAND navigation system.<sup>19</sup>

**From your smartphone.** The mbrace Mobile Application for iPhone and Android phones lets you send addresses directly to your navigation system, locate your car if you've forgotten where you parked, and remotely lock or unlock its doors. With just a touch, you can find a dealer, and contact Roadside Assistance, Concierge services or Mercedes-Benz Financial Services. And Drive2Friend™ lets someone send their location directly to your navigation system, simply by responding to a text message that you send them.<sup>20</sup>

**From your computer.** You can send the address of virtually any destination to your car's navigation system in a number of easy-to-use ways. You might choose to use the dedicated Send2Benz™ website. The well-known Google Maps has a convenient Search & Send™ feature. There's even a browser toolbar widget you can download. It lets you highlight any address on your screen and send it to your car with just two clicks. And you'll find a world of support at the mbrace website, accessible through [MBUSA.com/mbrace](http://MBUSA.com/mbrace).

# mbrace

## mbrace Packages

Mercedes-Benz mbrace is there for you when and where you need it. Two available service packages each include an attractive trial period, so you can experience the many ways mbrace helps you feel connected and protected. The mbrace Package (6-month trial included) includes unlimited access to its innovative Navigation and Destination Planning features: Send2Benz, Drive2Friend and Search & Send. It also includes all of the Safety and Security services, plus several reassuring Convenience features, such as the ability to locate your vehicle or remotely lock its doors via your smartphone. The mbrace PLUS Package (3-month trial included) offers unlimited use of our expert Concierge services, as well as spoken turn-by-turn Route Assistance—even if you're not using your car's navigation system—plus the latest traffic and weather reports based on your current location.

### SAFETY AND SECURITY

	mbrace	mbrace PLUS
 Automatic Collision Notification	•	•
 SOS/Emergency Call	•	•
 Roadside Assistance Connection	•	•
 Stolen Vehicle Location Assistance	•	•
 Automatic Alarm Notification	•	•
 Crisis Assist	•	•
 Safe Ride	•	•

**It can call for help, even if you can't.** In the event that an air bag or Emergency Tensioning Device is activated, mbrace initiates a call to the Mercedes-Benz Emergency Response Center to notify them of the incident, and provide information on your vehicle and its location. A Customer Specialist will then attempt to make voice contact with you. If you request help, or do not respond, they will notify local emergency response services, and stay on the line until help arrives.

### NAVIGATION AND DESTINATION PLANNING

	mbrace	mbrace PLUS
 Send2Benz Drive2Friend Search & Send	•	•

**The extra mile, around the clock.** The mbrace PLUS Package gives you unlimited access to Mercedes-Benz Concierge services—our network of experienced, professional personal assistants. They can fulfill virtually any request, at any time of day or night, right from the comfort of your vehicle, or from the Mobile App on your smartphone.

*For more information and a complete list of mbrace services, visit [MBUSA.com/mbrace](http://MBUSA.com/mbrace)*

Please see endnotes at back of brochure.

# MAKE IT YOURS.

Genuine Mercedes-Benz Accessories help you make your coupe the perfect expression of your personal style. A wide array of accessories lets you enhance your vehicle's appearance, expand its versatility, or offer it some extra protection in everyday use. From alloy wheels to cargo innovations to state-of-the-art multimedia systems, they're all exclusively engineered to fit your car as well as they fit your life. It's a great way to make your CL-Class unmistakably yours while keeping it genuinely Mercedes-Benz.

*See the entire accessory selection at [MBUSA.com/CL](http://MBUSA.com/CL)*

**Illuminated door sills.** Elegant, eye-catching brushed stainless-steel door sills are available in a set of two. When you open either door, they welcome you with soft blue luminescent Mercedes-Benz logos.

**Chrome door handle inserts.** Set your CL-Class apart with a set of door handle inserts in a polished chrome finish. More than a visual enhancement, they also help protect the paintwork from scratches.

**Dust cover.** Protect your vehicle from dust, dirt and scratches when parked in enclosed spaces such as a garage. The outer surface of the dust cover is made from breathable, durable synthetic material, while a soft flannel-type inner lining is gentle to the car's finish.

**Cargo area tray.** Precisely contoured to fit the trunk, this polyethylene tray helps protect your cargo-area carpets from spills and wet items.

**20" two-tone wheels.** With a high-contrast black/polished finish, these boldly styled alloy wheels also take an aggressive stance on handling.<sup>3</sup>

## INTERIOR TRIM

Black Ash wood

Brown Poplar wood (CL 600, CL 65 AMG)

Burl Walnut wood

Carbon fiber (CL 63 AMG, CL 65 AMG)

## PAINTWORK

Andorite Grey metallic

Black

Diamond Silver metallic

Diamond White metallic<sup>23</sup>

Iridium Silver metallic

Lunar Blue metallic

Magnetite Black metallic

Monarch Blue metallic

Palladium Silver metallic

## GRAND EDITION PAINTWORK

*designo* Magno Cashmere White (matte finish)

*designo* Mocha Black

*designo* Platinum Black

## ENDNOTES

- 1 Stated rates of acceleration are based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 2 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
- 3 Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.
- 4 All Mercedes-Benz mbrace® services operate only where cellular and Global Positioning Satellite signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. An mbrace subscription trial period is offered on new, Certified Pre-Owned and pre-owned sales and leases at an authorized Mercedes-Benz dealer. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required in order to use certain services. See your dealer or MBUSA.com/mbrace for details, including a list of compatible smartphones.
- 5 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST and/or Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. Lane Keeping Assist operates at speeds above approximately 20 mph.
- 6 Features noted are standard on CL 600 and CL 65 AMG. Heated steering wheel is optional on CL 63 AMG and CL 65 AMG at no extra charge, and includes wood/leather steering wheel.
- 7 Night View Assist™ does not replace the use of headlamps and must not be used as the primary visual source for the driver.
- 8 Rear view camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited to camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the camera.
- 9 PRE-SAFE® closes the front side windows and sunroof when the system's sensors detect side movement that suggests a possible rollover.
- 10 Braking effectiveness also depends on proper brake maintenance, and tire and road conditions.
- 11 DISTRONIC PLUS® adaptive cruise control is no substitute for active driving involvement. It does not react to stationary objects, nor recognize or predict the curvature and lane layout of the road or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the DISTRONIC Proximity Warning System before braking, as that may not afford sufficient time and distance to brake safely. After braking the car for stopped traffic ahead, system resumes automatically only if traffic pauses for less than 3 seconds.
- 12 WARNING: THE FORCES OF A DEPLOYING AIR BAG CAN CAUSE SERIOUS OR FATAL INJURIES TO A CHILD UNDER AGE 13. THE SAFEST SEATING POSITION FOR YOUR CHILD IS IN THE REAR SEAT, BELTED INTO AN APPROPRIATE, PROPERLY INSTALLED CHILD SEAT, OR CORRECTLY WEARING A SEAT BELT IF TOO LARGE FOR A CHILD SEAT. SEE OPERATOR'S MANUAL FOR ADDITIONAL WARNINGS AND INFORMATION ON AIR BAGS, SEAT BELTS AND CHILD SEATS.
- 13 Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions.
- 14 Bluetooth® interface does not provide phone charging or external antenna. Voice interactivity feature is dependent on selected handset. Visit MBUSA-Mobile.com for details. Phone sold separately. See dealer for a list of approved compatible phones.
- 15 The purchase of a new, satellite radio-enabled vehicle includes 6 months of service for SiriusXM Radio and SiriusXM Traffic. SiriusXM Traffic is available in select markets. If you decide to continue your SiriusXM service at the end of this period, all SiriusXM services are sold separately, and the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel. See SiriusXM Customer Agreement for complete terms, www.siriusxm.com. Sirius U.S. Satellite service available only to those at least 18 years of age in the 48 contiguous United States, DC and Puerto Rico (with coverage limitations).
- 16 All iPod® devices are sold separately. Feature not compatible with iPod Shuffle. See dealer for details.
- 17 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area.
- 18 System availability and use is not yet approved in all 50 states. See your dealer for the latest information, and check local laws regarding the use of front-seat video displays in your area.
- 19 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
- 20 mbrace is compatible with Apple iPhone® models running iOS 4.2 or later, and Android-based phones running OS 2.1 or later. Please visit MBUSA.com/mbrace for more information.
- 21 Obey local speed and traffic laws.
- 22 European Delivery Program discount available on select models, other models offered at MSRP. Please see your dealer for details.
- 23 Extra-cost option.

FOR A SMALL BLUE PLANET.

For more than 125 years—longer than any other automaker—we’ve been sharing this planet with you. And for generations, Mercedes-Benz has been breaking new ground to help preserve the earth for future generations. We introduced the world’s first 100% CFC-free car, not just in its air conditioning but in its entire production process. We’ve used water-borne paint since the 1990s. And our cars have long used steam-expanded foam, sustainably forested wood, and natural products from coconut, flax and even olives. We’ve been pioneering advanced powertrains for generations, leading not just to today’s BlueEFFICIENCY gasoline, clean diesel and hybrid models, but to the electric and fuel cell vehicles of a tomorrow that’s already here. Mercedes-Benz is also legendary for making cars of exceptional durability. After all, it takes about the same energy to build a car that lasts as one that won’t. And along with award-winning factories and processes, we’re helping to develop local infrastructures around the world to help bring a greener future to life. Like every aspect of Mercedes-Benz innovation, today’s work sets the stage for the mobility—and the planet—that everyone will enjoy tomorrow.
