

14–150 Wiring diagrams

Model year 1972/73

Model 107.024/044

Drawn with ignition switched off.

Connection of test instruments is drawn in dashed lines.

Color code

bl = blue	gn = green	sw = black
br = brown	rs = pink	vi = purple
ge = yellow	rt = red	ws = white

Circuit diagram and test

- | | |
|----------------------------------|----------------------------------|
| 3 Temperature switch 62 °C | a Fuse no. 9 (15/54) |
| 8 Temperature switch 100 °C | b Fuse no. 8 (15/54) |
| 9 Switchover valve | c Switch air conditioning system |
| 18 Relay air conditioning system | |
| 19 Relay switchover valve | |
| 24 Relay supplementary fan | |

Model 107.024/044

Ignition switchover

Model 108.067/068, 109.057

Circuit diagram and test

Model 116.032/033

Drawn with ignition switched off.

Connection of test instruments is drawn in dashed lines.

Color code

bl = blue	gn = green	sw = black	a Fuse no. 2 (15/54)
br = brown	rs = pink	vi = purple	b Fuse no. 4 (15/54)
ge = yellow	rt = red	ws = white	c Fuse no. 4 (15/54)
			d Switch air conditioning system

Ignition switchover

Supplementary fan
